

Whitney Engen, UNC senior defender:

"We get a lot of momentum during a tournament, but we really take every game seriously. Going into the NCAA Tournament, you have to play every game because each game could be your last. So we will be hell bent for leather in each game. With all of us seniors, this NCAA Tournament will be extremely important and emotional for us."

Ashlyn Harris, UNC senior goalkeeper:

"We changed our game plan today and adapted from the way that we played them (Florida State) the first time. I was extremely proud and have to give credit to my team, especially the defense, since Florida State didn't really get any opportunity to score today."
