STATEMENT FROM PATRICK SELLERS

In order to effectively address the allegations against me, I feel that it is critical that I do so separately from the University and the basketball staff.

I have been proud to be a part of the University of Connecticut and I want Coach Calhoun and others to look at my contributions in that same way.

Coaching is my passion and something I have spent many years of enjoyment doing. I want the record to reflect this and for people to see the respect and integrity that I will show toward this process in the months ahead.

Thank you to Coach Calhoun and everyone in the UConn community for the time that I have spent here. I will never forget it.

STATEMENT FROM BEAU ARCHIBALD

The allegations brought forward in this NCAA review are very serious and deserve and demand my full attention.

In order to best meet that demand, I think it is necessary for me to leave my position with the University and the basketball program.

I have loved my time at UConn as a player and as a staff member. It has been an incredible opportunity to be a part of this championship program under a hall of fame coach. I am grateful for my time at UConn and it has always brought me great pride. I wish everyone the best in the future.
