

An aerial photograph of a university campus. The image shows a dense cluster of multi-story brick buildings, some with distinctive architectural features like gables and dormer windows. There are several large, flat-roofed structures, likely modern academic or administrative buildings. A prominent feature is a long, white, curved structure that could be a covered walkway or a large greenhouse. The campus is interspersed with trees and green spaces. In the upper right corner, the words "DAYTON FLYERS" are written in a stylized, slanted, outlined font.

DAYTON
FLYERS

THE UNIVERSITY

DR. DANIEL J. CURRAN University President

Daniel J. Curran is president of the University of Dayton, recognized as a top-tier national university and one of the 10 best Catholic universities in the country. The Philadelphia native became the University of Dayton's 18th president and first lay leader on July 1, 2002.

Dr. Curran is guiding the University of Dayton through transformational times. A new master plan will shape development on a campus that now spans to the Great Miami River. A new strategic plan, A Vision of Excellence, will focus on strengthening the school's distinct Catholic and Marianist identity, diversifying the student body, internationalizing the curriculum, hiring nationally prominent faculty and building upon a learning-living environment that supports academic excellence.

Under Dr. Curran's leadership, the University of Dayton has enjoyed record applications, record sponsored research dollars and tremendous momentum.

In the past four years, the University started new exchange programs in China, established centers of excellence in nanotechnology and fuels and combustion, opened a science center, built a sports complex, launched the nation's first accelerated law curriculum and started a doctor of physical therapy program. In addition, UD opened the Dayton Early College Academy, a public high school on campus that prepares first-generation college students to earn a high school diploma and college credits at the same time. In the residential arena, UD constructed two facilities that combine living and learning — Marianist Hall, a residence hall with learning spaces, and ArtStreet, an imaginative housing and arts education complex in the University neighborhood. RecPlex, an ultramodern fitness and recreation complex, opened in 2006.

As a member of the National Collegiate Athletic Association's Division I board of directors, Dr. Curran helped shape academic reforms designed to improve the graduation rate of student-athletes. He has been named to its executive committee and Division I-AA/I-AAA Presidential Advisory Group. His other national board memberships include the Higher Learning Commission, part of the North Central Association of Colleges and Schools.

In the Dayton region, he focuses on economic development and high-tech issues. He chairs the Wright Brothers Institute board and serves on nearly two dozen others, including the Dayton Development Coalition, Dayton Area Chamber of Commerce, National Composite Center and Miami Valley Research Foundation. In the state, the governor tapped him for the Ohio Aerospace and Advisory Council.

Colleagues praise him for his forward-thinking approach, dedication to the Marianist mission, energy, approachability and strong commitment to social justice.

A sociologist by training, Dr. Curran spent 23 years in various administrative and faculty positions at Saint Joseph's University in Philadelphia, most recently as executive vice president and vice president for academic affairs. He's a noted scholar in criminology, juvenile justice and social problems, with a deep interest in international issues.

His passion for social justice runs deep. At his presidential installation ceremony in April 2003, he noted that a Catholic university must be "a force for social change. As a community of learners and educators, we must analyze the causes of social injustice and educate professionals with a conscience."

He serves on the board of the Ohio Children's Defense Fund and has served on the boards of Saint Joseph's Carpenter Society, a nonprofit organization that purchases and rehabilitates homes in Camden, N.J., and Philadelphia's Summerbridge Program, a college-prep program for minority middle-school students. For six years, he traveled with students to Tijuana, Mexico, on a service-learning project. He received the 2002 Eternal Flame Award, an international award given for "exceptional contribution to the field of Holocaust education."

Most of Dr. Curran's research has focused on ways to address social inequality. His prolific scholarly record includes eight books, most of which he co-authored with his wife, Claire M. Renzetti, former chair of the sociology department at Saint Joseph's University. *Theories of Crime: A Reader* was published in 2003 and is now available in Polish and Czech. The two are working on updated editions of *Women, Men and Society: The Sociology of Gender and Social Problems: Society in Crisis*. In 1993, the University of Pittsburgh Press published his *Dead Laws for Dead Men*, a historical analysis of coal mine health and safety legislation.

Before becoming a vice president at Saint Joseph's University, Dr. Curran served as dean of the College of Arts and Sciences for four years. He started his academic career there in 1979 with a series of faculty positions in the department of sociology, including chair from 1988 to 1992. As a professor of sociology, he has taught courses in criminology, social problems, juvenile justice and white-collar crime. Dr. Curran also served as president of the faculty senate at Saint Joseph's University.

In 1990, he served as a Fulbright Senior Scholar at the University of Melbourne in Australia. He held a concurrent professorship at Nanjing University in China.

Dr. Curran earned a Ph.D. from the University of Delaware in 1980 after receiving a master's degree from Temple University in 1978 and a bachelor's degree from Saint Joseph's University in 1973 — all in sociology. Dr. Curran and his wife, Claire, have two sons, Sean and Aidan.

TED KISSELL Vice President/ Director of Athletics

Ted Kissell begins his 15th year as Vice President/Director of Athletics at the University of Dayton. Under Kissell's leadership University of Dayton Athletics has been transformed into a widely-successful broad-based program.

As Kissell has implemented his strategic plan, championships have followed. In the last nine years (1998-2006), UD has had 23 conference championships and 17 teams reach the post-season. In the nine years prior to that (1989-98) the Flyers only had seven conference championships and one tournament appearance.

Only the sixth AD in school history, Kissell is charged with the oversight of 17 intercollegiate athletics programs, the University of Dayton Arena and the surrounding Arena Sports Complex. As a University Vice President, Kissell serves on the University's President's Council and is a member of the President's Cabinet. Beyond the University, he is a member of the A-10 Executive Committee.

A vital component of the Flyer master plan is a men's basketball program that is in consistent contention for a post-season bid. The progress of the men's basketball program in the last seven years toward greater national prominence has been marked by three NCAA bids, two NIT bids and an average of more than 20 wins a season. Annual basketball-related revenues have risen from \$1.8 million to \$8.8 million since Kissell came to UD in 1992.

The success of the men's basketball program has provided resources and allowed the annual operating budget to grow nearly \$10 million to support Kissell's strategy of building broad-based competitive results throughout Flyer sports programs. Women's soccer has earned five NCAA tournament appearances including a berth in the "Sweet Sixteen" in 2001 and has won eight of the last ten A-10 regular season championships. Women's volleyball has earned three consecutive NCAA tournament appearances and has won seven A-10 titles (regular season and/or tournament). Men's soccer has won four A-10 titles, and the baseball team's record for wins in a season was 25 after the 2000 campaign — since then UD has won at least 30 games four times.

Kissell has also invested in UD football to maintain its position as the model for Division I non-scholarship football programs. A grass practice facility and charter flights have advanced UD's competitive position. UD football has gained nationwide attention with 29 consecutive winning seasons and won outright or shared the Pioneer Football League championship eight of the 13 years the league has been in existence. The Flyers also won the 2002 NCAA Division I-AA Mid-Major National Championship.

Strong performance on the field has not come at the expense of a high level of performance in the classroom. The Flyers' combined cumulative grade point average has steadily risen during Kissell's tenure. Flyer student-athletes currently carry a cumulative GPA over 3.0.

UD has had 26 Academic All-Americans in the last six years. Only Nebraska, Rensselaer Poly and Rice had more. The Flyers had three Arthur Ashe Scholar-Athletes in 2005-06, the most in school history. Dayton is consistently among the league leaders in placing student-athletes on the Atlantic 10 Commissioner's Academic Honor Roll, even though the Flyers participate in fewer A-10 sports than all but one school. UD had the most players on the PFL Academic Honor Roll for the fifth straight year in 2005.

Providing strong, positive experiences and support for student-athletes is paramount in developing competitive athletic programs. During the last nine years, the Athletics Division has added full-time staff in the areas of coaching, academic support, strength and conditioning and athletic training.

UD's student-athletes are also educated on the subjects of time management, better nutrition and even public speaking. Travel to away athletics contests has been upgraded across the board to provide the better accommodations and itineraries for athletes to be able to focus on academics while on the road and minimize the amount of class time missed.

A high-water mark of Kissell's administration is the implementation of a gender equity plan that provides men and women student-athletes with equitable opportunities in line with the university's general population. U.S. News & World Report ranks UD in the top 15 in Division I gender equity. Additionally, the Athletics Division has worked with the University to implement an aggressive program to increase minority opportunities for student-athletes.

A key component of Kissell's plan is to upgrade facilities. Development of the Arena Sports Complex (a 25-acre project in full view of I-75 and an attractive southern gateway to the city of Dayton) began with a \$13 million renovation to the University of Dayton Arena, completed in 2002. Since then, the University has added a running track, the Jerry Von Mohr Football Practice Field, Time Warner Cable Stadium for baseball and a softball stadium that was completed for the 2005 season. The next ingredient will be the "Courttyard by Marriott at the University of Dayton" that will open during the fall of 2006. Along with the hotel, future plans include a restaurant, a multi-use field and — farther down the Great Miami River — a boathouse for the rowing team.

The Arena Sports Complex is the most visible of the upgrades, but every locker room in the Frericks Center has also been renovated, along with impressive venue upgrades for soccer and volleyball.

ADMINISTRATION

The new and upgraded facilities have been accomplished through effective fundraising. Under Kissell's leadership, the Athletics Division has raised over \$30 million for capital projects during the decade. A native of Chicago, Kissell holds two history degrees - a B.A. from Elmhurst College in 1969 and an M.A. from Northern Illinois University in 1972. Ted's family includes his wife Deanna, four children - Ted Jr., Jennifer, Sarah and Katie, and one grandson, Teo.

His committee work also extends to service to the University community. He currently serves on UD's Campus Master Planning Committee. Wabler is also an NCAA Peer Reviewer and a member of the Greater Dayton YMCA's Board of Trustees. A 1974 graduate of UD's School of Business Administration, Wabler has also completed the Sports Management Institute Executive Program. A former member of UD's Athletic Board, Wabler was a four-year letterwinner and three-time Pitcher of the Year for UD. He served as team captain as a senior. Tim and his wife Arlene have two daughters, Sarah and Leigh Anne.

TIM WABLER

Associate Vice
President for Athletics

A former Flyer student-athlete himself, Tim Wabler joined the University of Dayton Athletics Division as an administrator in 1993. As UD's Associate Vice-President for Athletics, Wabler's primary duties include the administration of all of UD's sports programs and support services.

In the last decade Wabler has been part of the Dayton Athletics Division, the Flyers have experienced significantly improved competitive success. In the last nine years, UD has had 23 conference championships and 17 teams reach the post-season. In the nine years prior to that, the Flyers only had seven conference championships and one tournament appearance.

The highlights include two fourth-place finishes in the Atlantic 10 Commissioner's Cup (all-sport) standings in the last five years. In 2003-04, three Flyer teams advanced to the NCAA tournament in the same school year, the very first time that happened in UD history. Women's soccer won the A-10 Championship seven years in a row and has advanced to NCAA play five of the past seven years. Men's basketball has averaged more than 20 wins a season over the last seven years. The volleyball team earned its first NCAA bid in 2003 by winning the A-10 Tournament, and returned to the tournament with conference title in 2004 and 2005. Men's cross country has won the cross country-only national championship the last two times it has entered the meet. The baseball team's record for wins in a season was 25 after the 2000 campaign, and since then UD has won at least 30 games four times. And the Flyer football team has won the Pioneer Football League championship eight times in the 13-year history of the league.

As success on the field has improved, UD student-athletes have also performed in the classroom. The Flyers' combined cumulative grade point average has risen to be above 3.0. UD has had 26 Academic All-Americans in the last six years. Only Nebraska, Rensselaer Poly and Rice had more. The Flyers had three Arthur Ashe Scholar-Athletes in 2005-06, the most in school history. Dayton is consistently among the league leaders in placing student-athletes on the Atlantic 10 Commissioner's Honor Roll, even though the Flyers participate in fewer A-10 sports than all but one school. UD had the most players on the PFL Academic Honor Roll for the fifth straight year in 2005.

Wabler managed the implementation of a gender equity plan that provides men and women student-athletes with equitable opportunities in line with the university's general population. A U.S. News & World Report ranks UD in the top 15 in Division I gender equity. Additionally, the Athletics Division has worked with the University to implement an aggressive program to increase minority opportunities for student-athletes.

Wabler is overseeing the Athletics' Division efforts to provide top-notch facilities for the next generation of Flyer student-athletes with the creation of the Arena Sports Complex. Development of the Arena Sports Complex began with a \$13 million renovation to the University of Dayton Arena, completed in 2002. Since then, the University has added a running track, the Jerry Von Mohr Football Practice Field, Time Warner Cable Stadium for baseball and a new softball stadium. The next ingredient will be the Courtyard by Marriott at the University of Dayton that will open during the 2006-07 school year. Along with the hotel, future plans include a restaurant, a multi-use field and farther down the Great Miami River, a boathouse for the rowing team.

Early in Wabler's tenure, the Athletics Division built the \$4.3 million Donohoe Basketball Center, an addition to the UD Arena, to provide new facilities for men's and women's basketball and football. The entire facility, which was dedicated in June of 1998, was conceived, planned and completed in 20 months time. In those 20 months, the entire \$4.3 million cost was paid for by charitable gifts to the University. On campus, renovations to Baujain Field (soccer) and the Frericks Center (volleyball) have improved those facilities to among the best in the Midwest.

Including the Arena Seating Plan, gifts to Athletics total over \$4.0 million annually. Wabler, a Dayton native, is in charge of all coaches' contracts for the Athletics Division, and manages radio and TV agreements. Wabler is also the administrator who oversees UD's athletic fund-raising efforts and long-term finances. Radio and television agreements have been expanded to increase exposure for Flyer athletics. On average, more than 30 UD athletic contests a year are televised. Dayton football, basketball, soccer, volleyball, baseball and softball games are heard internationally on the World Wide Web. UD football, men's basketball and women's basketball games are also broadcast on News/Talk 1290 WHIO.

Wabler has been actively involved in numerous A-10 Conference committees, including the Championships Review Committee, Baseball Committee and Soccer Committee.

CINDY HARTMANN

Associate Director of
Athletics/Senior Woman
Administrator

Cindy Hartmann, a member of the University of Dayton athletics staff for the past eight years, serves as associate director of athletics and senior woman administrator. Hartmann has been instrumental in advancing a compliance program which combines the training and education of coaches, staff, student-athletes, and boosters with the review and modification of athletics division and university operating procedures to insure compliance with those rules. She is responsible for the management of the office of academic services for student-athletes and has direct oversight of the life skills program. During her tenure, the Flyers' combined cumulative grade point average has risen to be above 3.0. In addition, UD has had 26 Academic All-Americans in the last six years. Hartmann also manages UD's National Letter of Intent program along with allocation and distribution of athletic grant-in-aid, and serves as sports program administrator for women's basketball, volleyball, softball and women's soccer.

In June 2002, Hartmann was selected to the NCAA Division I Women's Basketball Committee where she recently finished serving her four-year appointment. She is also a member of the National Association of Collegiate Women Athletic Administrators. Hartman has served on various sport program committees for the Atlantic 10 Conference office and has been the senior woman administrator representative on several standing committees including Finance and Television. She currently serves on the University of Dayton Inclusion and Diversity Council and on the A-10 Championships and Equity Committee. In 2001-02, she served as a representative to the NCAA Academic/Eligibility/Compliance Cabinet.

Before coming to Dayton, Hartmann worked at the University of Connecticut, where she served as compliance coordinator from 1996-1998. Prior to that, she was assistant compliance coordinator for one year. Hartmann served as sports information director at Georgia Perimeter College (known then as DeKalb College) for the 1994-95 school year. Hartmann has a Masters in Education-Sports Administration from Georgia State University and a Bachelor of Science degree in communication/photojournalism from Syracuse University. She was a four-year basketball letterwinner for the Orangewomen. Cindy and her husband, Troy, reside in Springboro, Ohio, with their two children, Samuel and Olivia.

MICHAEL O'HARE

Faculty Athletics
Representative

Dr. Michael O'Hare, Professor of Physics and Professor of Electro-Optics, was named faculty representative to the NCAA in 1998. Dr. O'Hare has been in the Department of Physics at the University of Dayton since 1966 and has served as chair of the department since 1983. Dr. O'Hare has taught physics at all levels and has research experience in atomic, molecular, solid-state and optical physics.

He has served as a consultant and visiting scientist to the Wright-Patterson Air Force Materials Laboratory. Most recently, Dr. O'Hare was a co-principal investigator on a NASA sponsored NOVA grant to design curricula for developing scientific literacy in preservice teachers.

Dr. O'Hare's duties as faculty representative to the NCAA include: taking an active role in the institutional control of the intercollegiate athletics program; representing a faculty viewpoint and faculty oversight and advice in the administration of the athletics program; involvement in the assurance of academic integrity of the athletics program and the maintenance of the welfare of the student-athletes; and monitoring of performance of the student-athletes.

Dr. O'Hare and his late wife, Patricia, have four daughters, all of whom graduated from the University of Dayton.

ACADEMIC SERVICES

Academic Services for Student-Athletes at the University of Dayton promotes a total person concept to the student-athletes, a concept that stresses the student-athletes' abilities to excel in athletic competition, attain academic achievement and develop positive character traits that will be of sustaining value to the individual and society.

Athletic accomplishments do not come at the expense of academic performance at UD. In 2003, the University of Dayton was ranked No. 8 nationally in NCAA graduation rates of the over 300 NCAA Division I institutions. This is a tremendous accomplishment and exhibits the continuing importance placed upon academic success at Dayton.

As success on the field has improved, UD student-athletes have also performed in the classroom. The Flyers' combined cumulative grade point average has steadily risen to be higher than the GPA of the general student body. UD has had 26 Academic All-Americans in the last six years. Only Nebraska, Rensselaer Poly and Rice had more. The Flyers had three Arthur Ashe Scholar-Athletes in 2005-06, the most in school history. Dayton is consistently among the league leaders in placing student-athletes on the Atlantic 10 Commissioner's Honor Roll, even though the Flyers participate in fewer A-10 sports than all but one school. UD had the most players on the PFL Academic Honor Roll for the fifth straight year in 2005.

The mission of the Division of Intercollegiate Athletics at the University of Dayton reflects the mission of the University by using the laboratory of fields of play and arenas of competition to educate young people to "LEARN, LEAD AND SERVE."

That mission is embodied in the following core purposes:

To educate the total person by integrating the primary academic purposes with educational possibilities and opportunities for young people beyond the classroom;

To teach the value of community and family through collaboration and teamwork;

To instill the fundamentals of sportsmanship, adhering to the values of respect, fairness, civility, honesty and responsibility;

To teach the tools of achievement, including self-discipline, personal responsibility and the setting of high standards;

To develop the individual talents of our student-athletes within the context of shared team goals;

To enhance diversity and minority opportunity at the University of Dayton; and

To advance the University of Dayton locally, regionally and nationally.

GOALS OF THE UNIVERSITY OF DAYTON STUDENT-ATHLETE ACADEMIC SERVICES

- To offer assistance with tutorial and study skills.
- To provide a facility with an atmosphere conducive to studying.
- To enhance student-athletes' knowledge through probing/questioning of thoughts, ideas and reactions.
- To stimulate the student-athletes' thought process with different ideas other than their own.
- To develop and encourage critical thinking.
- To monitor the study patterns of the student-athlete.
- To develop study strategies to achieve academic success at the University of Dayton.
- To enhance the academic motivation of the student-athletes.
- To help develop academic responsibility in each student-athlete.
- To develop appropriate collaborative learning experiences for student-athletes that facilitate their mutual support.

NCAA COMPLIANCE

WHAT IS A PROSPECTIVE STUDENT-ATHLETE/"PROSPECT"?

A prospect is any student who has started classes for the ninth (9th) grade, any student who receives financial assistance or other benefits from UD and/or its athletics representative that are not normally provided to prospective students generally.

You become a "recruited prospective student-athlete" at a particular college if any coach or representative of the college's athletics interests (booster or representative) approaches you (or any member of your family) about enrolling and participating in athletics at that college. Activities by coaches or boosters that cause you to become a recruited prospective student-athlete are:

- Providing you with an official visit*
- Placing more than one telephone call to you or any other member of your family
- Visiting you or any other member of your family anywhere other than the college campus

*You may take a maximum of five "official visits" with no more than one to any single institution

NCAA COMPLIANCE - THE NCAA AND YOU

The University of Dayton is committed to the principle of institutional control in operating its athletics program in a manner that is consistent with the letter and spirit of NCAA, conference and university rules and regulations. The University's commitment is to maintain control of its athletics programs through cooperation between responsible administrators, coaches, faculty, all institutional staff members, student-athletes and representatives of the University's athletics interests.

WHO ARE UD ATHLETICS REPRESENTATIVES/BOOSTERS*?

- Any current and former member of any UD Athletics Division fan support group
- Any contributor to UD Athletics or booster group members
- Season ticket holders
- Anyone who has helped arrange employment or employed a current or prospective student-athlete
- Anyone who has been involved, in any way, in the promotion of Flyer Athletics

*Please note: Once you become an athletics representative, you retain that identity indefinitely.

WHAT ARE EXTRA BENEFITS?

An extra benefit is any special arrangement by a UD staff member or an athletics representative to provide a prospective or enrolled student-athlete or his/her family with a benefit not specifically authorized by NCAA regulations. Impermissible extra benefits would include, but are not limited to:

- Cash or loans of any amount
- Co-signing or arranging a loan
- Gifts or discounted/free services (e.g., airline tickets, merchandise, etc.)
- Rent-free or reduced-cost housing
- Employment of a student-athlete at a rate higher than wages paid for similar work
- Payment to a student-athlete for work not performed

A MESSAGE TO PROSPECTS...

To participate in varsity athletics, student-athletes must receive "qualifier" status determined by the NCAA Clearinghouse. Please visit www.NCAAClearinghouse.net for further information.

It is never too early for student-athletes to start planning for college. Call the NCAA's "Wanna Play? Know the Rule" hotline at 1-800-638-3731 to hear recorded information and order your free copy of the NCAA Guide for the College Bound Student-Athlete.

ASK BEFORE YOU ACT

The importance of following all NCAA rules and regulations is imperative to maintaining the integrity of the University of Dayton. We ask all alumni, current student-athletes, prospective student-athletes, their families and friends to help the University protect the athletic eligibility of our student-athletes and the reputation of the University by adhering to the rules and regulations of the NCAA and by contacting the UD Compliance Office or the NCAA with all questions.

With questions regarding the information above, contact Julie Steinke, Coordinator for Compliance and Eligibility, in the UD Compliance Office at (937)-229-3708 or steinkja@notes.udayton.edu.

SUPPORT SERVICES

Joe Owens
 Assoc. Director of Athletics/
 Director of Athletic
 Performance Enhancement

Mark Thobe
 Coordinator of Strength
 and Conditioning

STRENGTH AND CONDITIONING

State-of-the-art conditioning centers, fully-equipped training rooms and full-time professionals combine to create a program for student-athletes that give them a physical edge over the competition. Each UD team has a plan designed and administered by qualified professionals to meet the specific needs of their sport and style of play. All student-athletes perform basic strength training with a general emphasis on explosive lifts that involve as much of the body as possible. Conditioning programs are designed to prepare student-athletes for the specific metabolic demands of their sport. Core training, agility work and sport specific exercises are then incorporated into each program to prepare each student-athlete for competitive success.

The UD strength and conditioning coaches work with our sports medicine staff to help reduce the risk of injuries and to efficiently return student-athletes to competition as quickly and as safely as possible following injury. With four staff members holding the Certified Strength and Conditioning Specialist (CSCS) credential, UD stays current on the latest research to insure that our programs are among the best in the country. In addition, the UD strength and conditioning staff can provide assistance in eating strategies that will improve the health and competitiveness of UD student-athletes. The University of Dayton athletic conditioning centers, located both in the Frericks Center (top left) and the Donohue Basketball Center (top right), house the very latest treadmills, Nautilus equipment and free weights.

SPORTS MEDICINE STAFF

At the University of Dayton, the health and well being of our student-athletes is a primary concern. We strive to prevent injuries through pre-participation physical examinations, well-designed conditioning programs, warm-ups, proper practice planning, and appropriate equipment selection. When an athletic injury occurs, our goal is to provide the best medical care possible from the initial first-aid to the follow-up care and rehabilitation.

FACILITIES

There are two Athletic Training Rooms in operation at the University of Dayton. The Arena Training Room is located in the Donoher Basketball Center and utilized by Arena Complex teams for practices and games. The Frericks Center training room is open year round and is utilized for treatment and rehabilitation to all sports in the mornings and serves those sports that operate out of the Frericks Center in the afternoon.

STAFF

The University of Dayton Sports Medicine Staff consists of a team of Family Practice Physicians and Orthopedic Consultants and four full-time and two graduate assistant certified and licensed Athletic Trainers. In particular instances the Head Team Physician may refer athletes to other physicians or specialists. However, the Head Team Physician supervises the status of all athletes referred to other physicians or specialists and has the final authority with regard to all medical disqualifications, treatment, and return to play. Referrals to specialists will be made through the Team Physicians or Athletic Trainers only.

Trained personnel are present at all home athletic contests and, where possible, at all practices to insure prompt medical attention. The Sports Medicine Staff works closely with the coaching staff to keep them informed regarding the medical status of the athletes.

Sean Convery, M.D.

Head Team Physician

Dr. Sean Convery is in his sixth year heading up Dayton's medical staff. Convery's primary full-time position is serving as the medical director of The Sports Medicine Center at Miami Valley Hospital in Dayton. In addition, he is a faculty member in the Family Practice Residency Program at Miami Valley Hospital; associate clinical professor in the Department of Family Practice at Wright State University School of Medicine; school physician for the Kettering City School District; and team physician at Kettering Fairmont High School.

Convery is past president of the Miami Valley Academy of Family Practice and serves as Montgomery County Medical Association delegate to the Ohio State Medical Association. He is a member of the American College of Sports Medicine and a charter member of the American Medical Society for Sports Medicine. Convery is active within the Dayton community, having been involved as a volunteer physician for the Nike Tour, Jingle Bell Run for Arthritis, Dayton River Corridor Classic and Special Olympics.

A 1977 summa cum laude graduate of the University of Steubenville in Steubenville, Ohio, Convery holds a Bachelor of Arts in chemistry. He is a 1981 graduate of the Wright State University School of Medicine. He is a board certified family practice physician with additional certification in sports medicine. A Philadelphia native, Convery currently resides in Centerville.

Tim Quinn, M.D.

Orthopedic Consultant

Former Flyer football standout Dr. Tim Quinn serves his alma mater as the orthopedic consultant for UD Athletics. A 1973 graduate, Quinn has been associated with the Flyers in this capacity since 1988. He was a two-time First Team Academic All-America, and was chosen a National Football Foundation/College Football Hall of Fame Scholar-Athlete in 1972. A versatile player, he was a starter at linebacker and on the defensive line in his career. He is also a two-time winner of UD's John L. Macbeth Memorial Scholar-Athlete Award.

Quinn received his medical degree from Ohio State in 1976, and then received a fellowship to study at the International College of Surgeons in London, England. He is a Fellow of the American Academy of Orthopedic Surgeons, and a member of the Orthopedic Society for Sports Medicine and Arthroscopy Association of North America.

Quinn's father Joe played and coached football at UD, and is a member of UD's Athletic Hall of Fame. The Quinn family — Tim, his father Joe, his brother Dan and his uncle Fran — combined for 14 football letters. Dr. Quinn has been an orthopedic surgeon in Dayton since 1981.
