

**2017 NCAA DIVISION I  
MEN'S & WOMEN'S TENNIS CHAMPIONSHIPS**  
May 18-29 • Athens, Ga. • University of Georgia  
Dan Magill Tennis Complex

**Men's Round of 16**

**# 5 UCLA (22-5) 4, #13 TEXAS A&M (21-7) 1  
QUOTES**

**UCLA HEAD COACH BILLY MARTIN**

*On today's match...*

"I thought we came out and played good doubles. One was certainly tight, two really led us, winning that getting us on the board. Three was a little bit struggling, went down a break, broke back, got themselves in it. That's the team at one, that's really been so strong for us the whole year. Winning big matches. I think they've only lost a couple matches all year. I think from a coaching standpoint to have them playing the last match here at this big venue, big ending tournament is what you want, and they came through."

*On advancing to the quarterfinals...*

"I'm shocked we're where we are. Very honestly. We lose our number one player a week before the tournament. It's been a weird set of events. We've been a pretty tight group this week and a half. We don't feel like we should be here. And we feel like no one thinks we should be here. We're just fighting, and trying to find a way. To say we're in the quarterfinals is great."

**UCLA PLAYERS**

**MAXIME CRESSY**

*On today's match...*

"I strive to focus point by point, it's easier said than done. I was not very distracted with the scoreboard I just played my match. I served very well, my first serve percentage was very high. In the last game, I did only two second serves. Something I need to work on is increasing my points on the baseline, raising my level on baseline game. I played very well with my strengths. We're not the favorites, but I still believe anything is possible. We're three matches away from the NCAA championship."

**TEXAS A&M HEAD COACH STEVE DENTON**

*On today's match...*

"Doubles is really important and we came up a little short there. UCLA did a good job of staying on top in the singles matches and kept the momentum on their side. That is what this game is about, momentum, and they were able to do that better than we were."
