QUOTES**

**VIRGINIA HEAD COACH BRIAN BOLAND**

*On advancing to the quarterfinals...*

"It was great to come down to Athens and play the first round and get through it against an outstanding Florida team. I believe we came out with a lot of energy, executed and played well. We're going to have to continue to get better with each match, but congratulations to Florida on a great season."

**VIRGINIA PLAYERS**

**J.C. ARAGONE**

*On advancing to the quarterfinals...*

"We came out with a lot of energy in doubles and I thought it was really impressive especially against these guys who are really good in doubles. We really carried the momentum into singles, obviously it's a tennis match and there's a lot of momentum shifts. They were really good at the big moments and took their chances and played really well, but I thought we were in control for a lot of the match. It got a little tight at the end but we were lucky to close it out."

**FLORIDA HEAD COACH BRYAN SHELTON**

*On concluding the season...*

"Getting here is an accomplishment in itself. When you start the year, you look at it and you want to be in that final 16 sight with a chance. I'm really proud of our guys, how hard they've worked, how they've lost this year and how they've won, and doing it the right way with character and class. Those are the things you want to see from your team and I feel like we got better as the season went along, so a couple real positives that we can build on. The culture's right in our program, and I think the future is bright as well. "

*On the incoming recruiting class...*

"We will have a new energy that will be great. Obviously, those guys are established players that have played around the world, so they won't come in as the typical freshmen. I feel like these guys will come in and be impact players right away. The guys that we have returning will continue to get better and better, so looking forward to working with that group but certainly appreciate what our seniors brought to our program and how much they gave us during their four years with us."
