

GONZAGA UNIVERSITY ATHLETICS POST SEASON AND ROAD GAME SEATING PLAN

Demand for postseason tickets often exceeds supply. The Board of Trustees long ago established a ticket distribution policy, based on a priority point system, which recognizes the contributions of long time supporters of the athletic program, as well as long time supporters of the University. This policy provides limits on the number of tickets available to any one individual, and these limits may not meet each individual family's needs. When special circumstances exist, the Athletic Department will attempt to accommodate additional requests, depending on availability.

For the below distribution policy, all percentile calculations are based upon the most recent semiannual calculation of priority points. Individuals must have a minimum of Fifty (50) Priority Points to be included in percentile calculations. However, once each defined percentile level has had the opportunity to access tickets, they will be made available to point holders with less than 50 points.

Road Games and Neutral Site Games

- Based upon total ticket availability.
- Games in the WCC are limited to 75 consignment tickets, with 24 lower bowl seats.
- For non league games, the number of seats available is typically less than the WCC games.

NCAA First and Second Rounds –

- Based on total quantity made available by the NCAA minus team and administrative needs.
- Tickets will be available to individuals on the priority point list, in descending order.
- The Top 5 percentile of points holders will receive a personal invitation to purchase tickets once they are available, most commonly via phone call from Gonzaga Athletics. All other percentile levels should monitor GoZags.com and their e-mail address on file with Gonzaga Athletics for information on availability and access to tickets.
- The Top 5 percentile of points holders wishing to purchase will be allocated all available tickets, with the opportunity to purchase up to 4 tickets per individual based on availability.
- Based on remaining availability, the Top 6-15 percentile of points holders will be allocated the remaining tickets, the opportunity to purchase up to 2 tickets per individual based on availability.
- Based on remaining availability, the lower 85 percentile of points holders will be allocated the remaining tickets, and the opportunity to purchase up to 2 tickets per individual based on availability.
- Once the top 15 percentile of points holders have had the opportunity to purchase their initial limit, individuals in that group will have the opportunity to purchase additional tickets, in descending points order, with the quantity of additional tickets made available based on remaining inventory.

NCAA Third/Fourth Rounds

- The Top 5 percentile of points holders wishing to purchase will be initially allocated all available tickets, with the opportunity to purchase up to 6 tickets per individual based on availability.
- Based on remaining availability, the Top 6-15 percentile of points holders will be allocated the remaining tickets, the opportunity to purchase up to 4 tickets per individual based on availability.
- Based on remaining availability, the lower 85 percentile of points holders will be allocated the remaining tickets, and the opportunity to purchase up to 2 tickets per individual based on availability.
- Once the top 15 percentile of points holders have had the opportunity to purchase their initial limit, individuals in that group will have the opportunity to purchase additional

tickets, in descending points order, with the quantity of additional tickets made available based on remaining inventory.

NCAA Final Four

- Top 15 percentile – unlimited. Initial process is in conjunction with a travel package.
- Lower 85 percentile– 6 tickets. Initial process is in conjunction with a travel package.

The location of all allocated seats is determined using the Gonzaga University Athletics priority points system (Calculations below). Special adjustments are made for the following:

- Gonzaga University Board of Trustee Members.
- The Basketball coaches and players families.
- High level Gonzaga University prospective donors.

Gonzaga University Athletics Points are calculated by using the following formula:

- One point for each year as a season ticket holder. 10 point bonus for every 10 years as season ticket holder.
- One point for every \$100 of giving to the Athletic Department.
- One point for every \$1,000 of giving to Gonzaga University , not including Athletics (up to 100 points).
- For life time gifts to the University of \$500,000 or more, one point for every \$1,000 of giving to GU, not including athletics, (up to 1000 points).
