Dear Game Day Staff Members:

A fan's experience at Illinois Football games is based as much on the quality of customer service that is provided at Memorial Stadium as it is on our team's performance. As a member of the University of Illinois Game Day Staff, you play a key role in our fans' impression of the Illinois athletic experience. You are often the only contact many of our fans have with our department and it is important that we work together to create a memorable experience for our guests.

We have set several goals that pertain to Illinois Football games and our Game Day Staff. First, we aim to ensure that each guest that attends a Fighting Illini football game has a safe and enjoyable experience and wants to return. Second, we want to effectively and efficiently handle any special concerns presented by an Illini guest. Third, we want to foster a work environment that encourages open and honest communication that will keep our staff involved and well informed. Fourth, we hope to create a positive working relationship that supports staff creativity, initiative and team spirit. Finally, we aim to provide our guests with a staff that is customer oriented, knowledgeable about our events and facilities and both eager and willing to respond to the needs of our guests.

We will do our best to provide you with the information and tools necessary to help us achieve our goals, starting with this employee handbook. We ask that you thoroughly read this handbook as it includes specific information pertinent to game days. You will only perform your job to the level of the effort that you put into it. Therefore, it is important that you do your part to become knowledgeable about all aspects of game day operations in order to better serve our guests.

We ask that you consider your responsibility to the Division of Intercollegiate Athletics as you would any other employer. Our Game Day Staff provide a vital service to all Illinois patrons so we ask that you make every effort to accommodate your event work schedule. Also, please follow the guidelines provided in this handbook regarding scheduling, change in availability and dress code.

On behalf of the entire Athletic Department at the University of Illinois, we thank you for your efforts to ensure that each guest enjoys their visit to this great campus and University.

Thank you again for your dedication and effort.

GO ILLINI!

Illinois Event Management Staff

Our guests' experience starts with you!

GENERAL INSTRUCTIONS FOR ALL GAME DAY STAFF

Our guests are the most important people in our business. It is our goal to serve them with the highest degree of courtesy and professionalism. Remember that 95% of our guests are great fans who respect and enjoy the Illinois traditions and our facilities. Those guests are the easy ones to serve. Your challenge will be the other 5%. They may not be very understanding or cooperative, so it may be up to you to make their experience at an Illinois event a positive one.

1. As a member of the Game Day Staff, you should be well informed regarding the details of the event you are working. Such as: game time, parking lot locations, seating layouts, parking and stadium policies, first aid locations, etc. It is paramount that you observe what is happening around your assigned area and be ready to assist our patrons.
2. All Game Day Staff should become familiar with their assigned duties and area, as well as adjacent areas.
3. Each Game Day Staff Member should orient themselves in regard to their assigned location in a parking lot or inside Memorial Stadium. Are you on the East or West side of the facility? What time do parking lots close? What is the quickest and easiest way to get to a First Aid Room in case of an emergency? Who is allowed to park in Lot 31? These are just a few examples of questions that any guest may ask.
4. The Division of Intercollegiate Athletics provides quality medical supervision throughout Memorial Stadium and the surrounding parking lots. Should a patron need medical assistance, you should contact your supervisor or seek assistance from the closest IEMS member or first aid room staff.
5. Drinking alcohol of any kind is strictly prohibited while on duty. You are an employee of the University of Illinois, and as an employee, the following University policy applies:

“The University of Illinois is committed to maintaining a drug- and alcohol-free environment for its students and employees in compliance with applicable state and federal laws. Students or employees who violate federal or state laws concerning drugs or alcohol are subject to criminal prosecution; those who violate University policies also are subject to institutional sanctions.”
6. The use of profane language (swearing, cursing, and use of obscenities) is not appropriate when dealing with our guests.

7. Should a patron with a problem or question approach you, the *Indirect Technique* for handling problems should be used. The steps of this method are as follows:
 - Listen and ask questions
 - Empathize with the patron(s)
 - Restate the problem to ensure you understand
 - Consider what action to take
 - Take action
 - Follow up with the patron and/or your supervisor

8. When a patron is engaging in prohibited behavior, and you must intervene into the situation, the *Direct Technique* should be used for handling these types of problems. The steps of this method are as follows:
 - Evaluate the situation
 - Give instruction (notify the patron that their behavior—smoking, drinking, etc.—is prohibited)
 - Repeat instruction if the patron does not cease the behavior
 - Obtain closure with the patron
 - Follow-up with your supervisor

9. Should you, as a Game Day Staff member have any questions or problems, you should seek the assistance of your supervisor.

EMERGENCY SITUATIONS

As news headlines constantly illustrate, critical incidents can and do occur. It is impossible to anticipate when, where or how a public disaster may occur. In order to be prepared for critical incidents contingencies, it is our responsibility to be aware of the threats we face, be educated regarding public safety response and be committed to assisting in providing solutions.

AWARENESS:

Since 9/11, the threat of a critical incident occurring in our lives has come more clearly into focus. And although terrorism is a real threat, it is only one of any number of incidents that could result in human crisis. (Bomb threats, fire emergency, medical emergency, hazardous material emergency, or weather related emergency)

PREVENTION:

The best way to respond to disaster is to prevent it from ever occurring. Each of us can help prevent critical incidents by being observant and exercising common sense. Know your area, watch for unusual occurrences and immediately seek assistance when something seems wrong or out of place.

DIRECTION:

Critical incident response is directed from the command booth located on the top floor of the press box. All decisions regarding occurrences and coordination will be made from this area. Communication to all parties will be made via radio if available. Police and/or Medical personnel will provide direction. Public address announcements will be used to give directions and to calm the crowd.

For example, during incidents of severe inclement weather, which requires temporary evacuation of the open seating, patrons in the following seating areas will be directed as follows:

1. Fans seated in the Horseshoe will be directed to the east and west great halls.
2. Fans seated in rows in the lower east main stands will be directed to the East Great Hall and the restrooms on the main floor using the lower vomitories. Fans seated in the upper east main stands will be directed to the inner ramps and east great hall using the upper vomitories. Fans seated in the east balcony will be directed to the ramps located in the corner towers. The first fans to enter the east great hall will be directed to the Irwin Indoor building to help create enough space in the east great hall for as many fans as possible.
3. Fans seated in the west main stands will be directed to the West Great Hall. Fans seated in the west balcony will be directed to the ramps located in the corner towers.
4. Fans seated in the north Stands will be directed to Irwin Indoor building.
5. Fans seated in the Colonnades Club, 77 Club, and suites will be directed to stay where they are, but move away from windows.
6. Fans located outside the stadium but inside the portals will be directed to the nearest great hall by the nearest gateworkers. Fans who have not yet had their ticket torn will be directed back to their car or the nearest available shelter outside of the stadium. Assembly Hall will be made available as a shelter and most people should be directed there using the main west entrance to get in the building. Gateworker supervisors will close, but not lock, the portal gates.
7. Depending on what time it is in relation to kick off the parking attendants will be instructed to take shelter in the nearest viable place or told to come to the stadium and check out.

Once the game resumes after a suspension due to weather people who leave the stadium due to a weather evacuation will be required to show a stubbed ticket to regain entrance. They will be searched in the same manner as if they were entering the stadium for the first time.

In compliance with NCAA guidelines, once lightning is sighted, the event must be suspended for 30 minutes after the last sound of thunder and flash of lightning. It will be the decision of the event manager, officials, and coaches whether or not to continue the event after the delay. The event manager will coordinate with public safety agencies and the National Weather Service to assess conditions. The command post staff has access to computers to help evaluate the weather conditions.

A **tornado watch** means conditions are favorable for tornadoes in and close to the watch area. Persons in these areas should be on the lookout for threatening weather conditions and listen to the radio for later statements and possible warnings.

A **tornado warning** means that a tornado has been sighted in the area. Listen for radio announcements on local radio and television stations, monitor NOAA Weather Radio and, if outdoors, listen for the Outdoor Warning Sirens to sound. If notified of a **tornado warning**, via siren or local media, take immediate cover. Stay in a protected area for a period of 30 minutes. If the immediate danger continues to exist, or if a new threat develops, the sirens will be sounded again.

In the event an employee receives information regarding threats of any kind, that employee should contact their supervisor or a police officer immediately while not arousing other employees' or guests' suspicions. Never broadcast information concerning a threat over any radio. It is important to act in a calm and professional manner and follow the instructions given to you by your supervisor.

IMPLEMENTATION:

Police working an event will direct public safety response to all critical emergencies at Memorial Stadium. EMS will manage all medical emergencies. All stadium staff will provide support as needed.

INDIVIDUAL RESPONSIBILITY:

Staffs have two responsibilities. First and foremost is your individual safety. Second and equally important is our role in assisting guests and each other to safety.

ATTITUDE & STYLE

- One hundred percent service and total satisfaction is what we want for our guests. If our guests are pleased, we will succeed.
- You are working for a major college athletic program! Be proud of your position and demonstrate it by your attitude.
- Be a team player. Support and assist in the training of other employees within your area.
- Be innovative! We need to constantly look for new and better ways to do things. We will learn from our efforts that fail and prosper from those that succeed.
- Be enthusiastic! Share your enthusiasm for the event.
- Be aware of special needs of children, the elderly and the disabled. If you see a dangerous situation develop, act immediately and courteously. Elderly and disabled guests may have special needs or requests. Never show impatience of an elderly or disabled guest who seems slow and confused. Instead, offer smiling assistance and help them any way you can.
- Be informed. Invite and answer questions. People are less anxious when they know what is happening around them.
- Listen when someone expresses a concern. Don't get defensive over the problem. When someone is extremely irate, all it takes is a little understanding to make things right.

- It's a great temptation to be distracted. Stay focused on your responsibilities and not the event.
- Make every attempt to comply with our guests' reasonable requests.

nearest supervisor or law enforcement officer and explain the situation.

Post Game Duties for Gateworkers and Ushers

Because the event has concluded, this does not mean that you are ready to go home. Our Event Staff must continue their duties until all the fans have vacated the facility and your supervisor has released you. In some cases, certain employees have duties securing the field. Listed below are several things that every employee should do after the game is over:

1. Insure that all guests have exited your area safely and in an orderly manner. Sometimes, guests need help or get hurt while leaving. It is your job to be in your area to assist with any need. If you have duties elsewhere, ensure that your supervisor knows to get someone to watch your area.
2. Check with your supervisor concerning post-game positions. If you are needed to secure the field, please be at your station at the appropriate time.
3. Report any large spills, broken equipment, etc. in your area to your supervisor so that it can be attended to.

Stay at your job location until all guests have left your area and your supervisor has released you. All entrance locations to the stadium must be manned at all times throughout the event.

Lot Descriptions

Game Day Purchase Lots

1. There are some lots available for game day purchase these lots are Lot 44, 48, 49, and the lots in Research Park. Parking fees for these lots are \$20 per automobile. Automobiles with pull behinds are only allowed in Lot 48 for \$40. Oversized vehicles/motor homes may park in Lot 33 for \$40. Buses may park on Pennsylvania Avenue for \$50.
2. A limited number of handicapped parking spaces, including van accessible spaces, are provided in the four quadrants of the Assembly Hall. An ADA Shuttle Lot is also located in Research Park in the Yahoo Parking Lot off of First Street. An ADA accessible bus will provide transportation from this lot to the stadium prior to the game and after the game. The fee for all ADA parking is \$20 unless you have an I FUND parking pass. A disabled license plate or handicap placard is required to park in these spaces.

Season Parking Lots

1. These lots (Lot 40 and Lot 41) require a lot specific pass to park in the lot. Patrons parking here will either have a University E9 parking hangtag or a

football parking pass for Lot 40/Lot 41. This is the ONLY lot that these patrons may park in.

Premium Seating Parking Lots

1. Patrons who are sitting in the premium seating area at Memorial Stadium have been given a parking pass for the premium seating parking lots. These lots (Lot 34, parts of Lot 37, and Lot 43) require a lot specific pass to park in the lot. The patron can **ONLY** park in the specific lot they have the pass for. The pass will need to be torn to keep an accurate count of the lot. Those individuals parking in the Lot 34 and Lot 37 have an assigned parking space. Please make sure they park in the correct spot.

I Fund Parking Lots

1. Supporters of the Division of Intercollegiate Athletics I Fund receive priority parking on game days as a result of their donation.
2. **Each donor is assigned to ONE parking lot. This is the ONLY lot they can park in. There is no more parking down in a lower level lot or parking in game day purchase lots. If they would like to park in a game day purchase lot they will have to pay and follow the rules of that lot.**
3. This new parking system allows a donor to arrive 3 hours or 15 minutes prior to kickoff and still be guaranteed that they can park in the lot they were assigned. Therefore, it is important that if you see people taking up numerous spots that we remind them of the system and that they need to be considerate of others. Parking passes for these lots will need to be torn to keep an accurate count of the lots. Counting the stubs throughout the day will also help us know how many people we still need to fit into the lot. A final lot count will need to be turned in at the end of the day.
4. Donor lots are designated as “Car Only” lots or “Cars/RVs/Oversized Vehicle” lots. This means that in a “Car Only” lot ONLY cars, minivans, and SUVs will be allowed to park. Pull behind trailers of any type (regardless of size), motor homes, bread trucks, buses, or any other oversized vehicle will **NOT** be allowed in these lots. Any vehicle of any size may park in lots designated as “Cars/RVs/Oversized Vehicle” Lots.
5. If a person comes to a “Car Only” lot with a vehicle that is not allowed they must not be let in even if they have a pass for that lot. They were instructed of this when they were assigned their lot. **If someone comes to a “Car Only” lot with a pull behind they are to go to Lot 48 where they will need to pay \$40.00 to park. If someone comes to a “Car Only” lot with an oversized vehicle or RV they will need to go to Lot 33 and pay \$40.00 to park.**
6. Those that have passes to Lot 35 and Lot 36 will have an assigned space. Please make sure they park in the appropriate space. A pull behind trailer can be brought in to Lot 36. However, the patron must have a Lot 36 parking pass for the vehicle and an additional Lot 36 parking pass for the pull behind. The pull behind must detach from the vehicle and park in the additional reserved spot.

HISTORY OF MEMORIAL STADIUM

Memorial Stadium was built in 1923 as a memorial to Illinois men and women who gave their lives for their country during World War I. Their names appear on 200 columns that support the East and West sides of the stadium.

Donations of approximately \$1.7 million by more than 200,000 students, alumni and other friends of the University made the construction possible. The Athletic Association (now known as the Division of Intercollegiate Athletics) later allocated \$509,805 to the project for the construction of the south stands and other stadium additions.

The stadium opened on Nov. 3, 1923, when Illinois defeated Chicago, 7-0, in a Homecoming victory. The stadium was dedicated officially Oct. 18, 1924, a day that Illinois not only defeated Michigan, 39-14, for a Homecoming victory, but Harold "Red" Grange accounted for six touchdowns in what remains as the single greatest performance in Memorial Stadium history. In the first 12 minutes of that game, Grange ran for a total of 265 yards and scored four times. He had his hands on the ball only six times and left the field before the end of the first quarter.

In the third quarter, Grange returned and ran 13 yards for his fifth touchdown, and in the final period he passed to Marion Leonard for his sixth score of the day. In 42 minutes of playing time, Grange gained a total of 402 yards, carried the ball 21 times and also completed six passes for 64 yards. Legendary coach Amos Alonzo Stagg called it "the most spectacular single-handed performance ever delivered in a major game."

The 1994 season represented the 70th anniversary of Memorial Stadium's dedication and the historic Illinois-Michigan game. To celebrate the event, Red Grange's wife, Mrs. Margaret Grange, attended the Fighting Illini's Oct. 22 game against Michigan. She helped dedicate The Grange Rock, which sits at the north end of Zuppke Field as a tribute to her husband. The rock came from the same Indiana Stone quarry that produced the granite columns of the stadium.

During the 1980s, Memorial Stadium saw 27 consecutive sell-outs. The single-game attendance record is 78,297 for a 1984 victory over Michigan.

Installation of the first artificial turf and a new lighting system was made possible through a 1974 Golden Anniversary campaign drive. The lights have made games and practices possible after sunset. Even though the field is lit only from the towers on the four corners of Memorial Stadium, the light intensity is easily sufficient for major network telecasts of night games.

Other stadium improvements include the 1967 installation of a press box, which was located at the top of the West balcony; construction of the Ray Eliot Varsity Room, a training table and trophy display area at the Southeast corner of the stadium that was built with funds donated by friends of the Athletic Association; a million-dollar stadium renovation project in 1972, which included the addition of aluminum seating and other improvements; and a 1977 renovation of the varsity locker rooms and trainer facilities. In April 1985, \$7 million worth of improvements began. Out of this project came installation of new artificial turf and expansion of the football headquarters in the Northeast corner of the stadium.

Another renovation occurred between November 1991 and August 1992. The \$18 million project included the replacement of all the concrete bleachers in both upper decks, as well as the replacement of the top 25 rows of the main stands. The stadium's electrical and drainage systems were also brought up to code and new restroom facilities, for both men and women, were installed in the corner towers and great halls. The UI Auxiliary Facilities System financed the project through the issuance of revenue bonds. Before the

start of the 1994 season, a new color matrix scoreboard was added to the north end of Zupke Field.

The Memorial Stadium practice dome, more commonly known as "The Bubble," was inflated for the first time in December 1985, and the Fighting Illini's new locker room facilities opened before the 1986 season. In 2000, completion of the Irwin practice facility concluded.

In the summer of 2001 the stadium surface was renovated with the replacement of the field's AstroTurf with AstroPlay, an artificial surface with a grass-like, non abrasive, polyethylene fiber matrix which is filled with special rubber granules. The Illini played on the new surface for the first time in the 2001 home opener against Northern Illinois. Field Turf will replace the surface prior to the 2012 season.

Construction took place in the winter of 2002 on the expansion of the football complex. Locker rooms and meeting rooms were expanded and a new sports medicine facility was built on the first floor of the Irwin complex as well as the addition of a new video-replay scoreboard in the North end zone.

In 2006, the University of Illinois Division of Intercollegiate Athletics began a \$116 million renovation project of historic Memorial Stadium. The renovations to the North End zone were completed in August of 2007. That same year the video-replay scoreboard was moved to the south end of Memorial Stadium. The renovations of the Great West and East Halls and the addition of the new press box were completed before the 2008 season.

Among the renovation on the west side is the addition of luxury suites, indoor and outdoor club areas and a refurbishment of the concourses. An outdoor club space, the Colonnades Club, was added under the west balcony and allows for indoor game day hospitality, as well as outdoor chair back seats for contest viewing. In the west balcony, a three-level structure was built to house two floors of suites and an indoor club space, as well as a new press box for media seating and game day operations. The indoor club, which seats 200, has been named "77 Club" to honor the retired number of Illinois gridiron legend Harold "Red" Grange. Both the Great East and West Halls were also modernized in this renovation. Also, underneath the newly enclosed north bleachers, the Illinois football complex was expanded with the refurbishing of the weight room, training facilities and meeting space. A new state-of-the-art FieldTurf surface was also added before the 2008 season. Prior to the 2009 season a larger-than-life statue of Red Grange was added to the west side of Memorial Stadium between Gates 16 and 18. This statue was sculpted by artist and University of Illinois alumnus George Lundeen. Current seating capacity of Memorial Stadium is 60,670.
