“c” indicates .24 seconds added to convert from hand timing
 numbers in () indicate meters

** indicates that javelins have been adjusted to reduce their flight over the years, the last time being in 2000. This last was thought to reduce the flight distance about 10 percent. Top listings shown are with currently legal javelins as determined by the International Athletics Federation. The second listing is a longer throw but with what today would be considered a javelin that did not meet current specifications.
