The Loyola College Rowing team and members of Habitat for Humanity join forces to row 12 hours on ergometers (indoor rowing machines). This is a physically demanding and mentally challenging feat!

We'll keep track of how far each participant has rowed using our rowing machines' computers. We're trying to set a new record of 1 million meters and \$16,000! Rowers and participants are also trying to break individual fundraising and rowing records. This is now a National Event and we will be working with: Kansas State University, Tulsa Univ., Bucknell Univ., Boston Univ., George Washington Univ., Mary Washington College, Northeastern University, Univ. of Michigan Men's Rowing.
