

23RD ANNUAL GOLF TOURNAMENT

JUNE 17
2009

GRANITE LINKS GOLF CLUB ~ QUINCY, MA

Welcome

Wednesday, June 17, 2009

Dear Friends,

Welcome to today's 23rd Annual UMass Boston Golf Tournament!!

And I congratulate you for rising at dawn.

We have a great day planned for you. In addition to the eighteen holes of challenging golf on this beautiful course, we invite you to be our guests for lunch immediately after play, when there will be prizes for best golfers in several categories, plus ample opportunity to brag about your exploits.

Today's tournament continues a long and proud tradition. The Golf Tournament is the single largest fundraising even for the UMass Boston Department of Athletics. The revenue generated today provides support for all 18 UMass Boston varsity teams, helps to finance our annual awards banquet and allows the University to provide its available athletics facilities and resources to the people of Greater Boston, making an enormous difference in the lives of local families and youth.

In addition to your support, a number of very generous local businesses and organizations are assisting today's tournament as sponsors. Please make a point of contacting them whenever you need the outstanding goods and services they provide.

You can get the latest information on Athletics at UMass Boston, including schedules for all games, by visiting the Department's web site at www.beaconsathletics.com. Our student-athletes and coaches look forward to seeing you during the upcoming season.

Keep your shots on the fairway, and have a wonderful day!

With Good Wishes,

A handwritten signature in black ink that reads "Charlie Titus".

In the world of construction, quality and safety are critical to every project. Which is why leading architects, general contractors, building owners, and facility managers throughout Eastern Massachusetts rely on the skilled union electricians of Local 103 of the International Brotherhood of Electrical Workers (IBEW) and the professional electrical contractors of the Greater Boston Chapter of the National

Electrical Contractors Association (NECA).

For more than a century, IBEW and NECA have literally helped build our region. From our most cherished historical sites and renowned educational institutions, to major transportation projects, leading technology companies, community schools, and libraries, our landmarks shed light on a century of electrical construction unsurpassed in quality.

Take a close look at just a few of the recently completed projects by Local 103 and NECA Greater Boston Chapter members. It will tell you where to turn for the highest standards in electrical and telecom construction.

Rely on the power of quality electrical work. Call **1-877-NECA-IBEW** for a complete directory of NECA Greater Boston Chapter Members, or visit us at www.bostonneca.org

UMass Boston Athletics

UMass Boston's Department of Athletics annually affords approximately 300 students the chance to participate in competitive sporting events through its 26 varsity and intramural teams and clubs. The University offered 18 varsity sports in the 2008-09 academic year, in which student-athletes competed at the NCAA Division III level, with additional programs falling under intramural sports.

The primary purpose of the athletic and recreation programs at UMass Boston are to enhance the collegiate experience of all students by providing extensive opportunities that foster healthy interaction and competition among members of the student body.

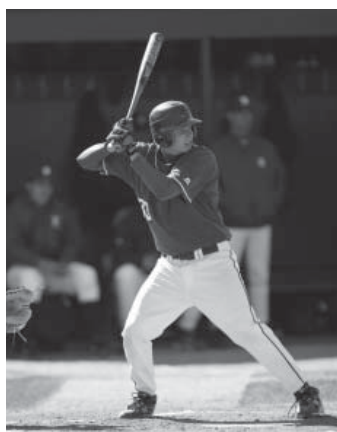

The varsity intercollegiate program sponsors teams for men in basketball, hockey, soccer, baseball, lacrosse, tennis, indoor and outdoor track and field and cross country. For women, varsity teams compete in basketball, volleyball, softball, soccer, tennis, ice hockey, indoor and outdoor track and field and cross country.

With those guidelines in place, the UMass Boston Athletic Department has firmly established itself as one of the strongest and most well-rounded programs in New England. No Division III public institution in Greater Boston can boast the breadth of athletic opportunities open to UMass Boston students and few departments can match the Beacons' overall success on the playing field.

Since 1981, when the varsity athletics program began at UMass Boston, the Beacons have won four NCAA Division III national team championships, 22 individual titles and have seen 21 athletes achieve All-America status a total of 94 times. That record cannot be matched by any other UMass campus, and only one other state school in New England comes close.

The 2008-09 season saw the UMass Boston women's volleyball team come within one point of its first-ever conference championship, while boasting the Little East Conference Player and Rookie of the Year. The team set school-records for overall and league wins as did the women's soccer team. The Beacons hosted their first-ever playoff contest and advanced to the LEC women's soccer semifinals under the LEC Coach of the Year. The team also featured four All-Conference players, including the league Rookie of the Year. The women's hockey team hosted a playoff contest for the fourth straight season and has recorded double-digit wins in every season since its inception in 2003-04. The men's team shocked the college hockey scene with a 1-0 overtime win over top-seeded Norwich and advanced to the title game, before falling in overtime. The softball team set a new school mark for conference wins with a roster of mostly newcomers, while the baseball team broke nearly every offensive school record in the book en-route to setting a new standard for league victories and its fifth straight post-season appearance. UMass Boston track boasted a Little East Conference champion in the men's indoor 800 meters and the women's outdoor 100 meters as well.

Beacon athletes also make a positive impact on the community. In the past year alone, the Department of Athletics has expanded its already strong ties to the Greater Boston community by offering a number of instructional clinics designed to develop an appreciation for sports among local children.

When the Beacons go on the road, they use ...

The University

The University of Massachusetts Boston was established in 1964 to provide the opportunity for superior education at moderate cost to the people of greater Boston.

Starting out in a downtown Boston location, the university moved to its current 175-acre campus on the Columbia Point peninsula in 1974 and merged with Boston State College in 1982. A commuter school, UMass Boston is nationally recognized as a model of excellence for urban universities.

UMass Boston enrolled 13,433 students in the 2007-2008 academic year, with 10,008 undergraduate students and 3,425 graduate students comprising a multicultural and diverse student body. Students of all ages are enrolled at UMass Boston and students of color make up 36 percent of the university's undergraduate enrollment. More than 90 languages are spoken in the homes of members of the 2005 graduating class.

UMass Boston's graduate school and six colleges offer over 100 undergraduate majors, minors, and programs of study, and nearly 61 graduate programs, including 14 at the doctoral level., while the university's 30 institutes and centers are actively involved in research and public service in the areas of public policy; gerontology; media; labor; women in politics; African-American, Latino, and Asian issues; and environmental concerns. More than 280 active research and training grants attracted a total \$35.6 million in external funds—a new record of success—for the fiscal year 2004-05. Comparing five-year averages shows the amount awarded UMass Boston increased a remarkable 70% between 2001 and 2005. The university employs 862 distinguished faculty members, including Lloyd Schwartz, winner of the Pulitzer Prize for Criticism.

Located in the Boston community of Dorchester, UMass Boston offers excellent views of downtown Boston, the Harbor Islands and Dorchester Bay. UMass Boston shares its campus with the John F. Kennedy Library, which offers its archival resources to UMass Boston students and instructors. The university's own Healey Library is an information gateway to more than 600,000 books and journals on campus and to thousands of electronic information resources on the Internet.

Other academic facilities include the biology department's three greenhouses, which host collections of plant species native to tropical, desert and temperate climates, and The Instructional Technology Center, a professional development and technology facility for faculty and staff, which opened in 1996.

The Clark Athletic Center is home to UMass Boston's varsity athletics program and features a 3,500-seat arena, a hockey arena that seats 1,000, and a swimming and diving facility equipped for intercollegiate competition. The Beacon Fitness Center is equipped with more than 25 cardiovascular machines, a universal weight machine, 16 Nautilus stations and free weights. The Fitness Center also houses two racquetball courts, a squash court, an aerobics room, a walking track and a two-level lounge.

The newest major addition to the UMass Boston landscape is the 331,000-square-foot Campus Center — a \$50 million project which centralizes student services and activities. The campus' new "front entrance" opened in April of 2004.

Located three miles from the downtown district, UMass Boston combines hands-on learning in a metropolitan setting with the scenic surroundings of one of the nation's most historic cities.

Why UMass Boston?

There's no doubt. The city of Boston and the surrounding area boast many of the world's finest institutions of higher learning. And UMass Boston is one of them. Here's why you should consider UMass Boston.

 UMass Boston is a member of the Little East Conference, which is unquestionably one of the top Division III conferences in the nation.

 Aside from providing a competitive playing environment, the UMB athletic department also doubles as a place where students can receive hands-on training in nearly all facets of athletics administration.

 At UMass Boston, you learn from the best. A faculty with more Harvard Ph.Ds than any school in the United States (except Harvard).

 The university is the only educational institution in the Northeast that shares its campus with a presidential library.

 UMass Boston has won four NCAA Division III national championships, 19 individual national titles and has seen 21 different athletes achieve All-America status a total of 94 times.

 Our home, the Clark Athletic Center, is one of the best Division III athletic facilities in New England.

 UMass Boston is the only four-year, state-supported institution inside the Interstate 95 beltway.

 Students have the opportunity to commute from home or live off-campus with teammates.

 We're located just three miles from downtown Boston with all of the city's major attractions easily accessible from the campus.

Academic Advising

At UMass Boston we prepare our students for life.

And because the life of a college student can be much more challenging than a basketball game or a soccer match, the UMass Boston athletic department provides you with the means to be successful in whatever sport you play, and also in the game of life.

UMass Boston's academic advising center for student athletes is designed to help each Beacon athlete in every sport complete his or her undergraduate degree. We make sure that our students are not solely concerned with maintaining athletic eligibility. We work extensively with the faculty and professional staff on-campus, and we help our students with course selection, advising and counseling, and career and graduate school exploration.

When you enroll at UMass Boston, you will get to know your advisor quite well. One of our primary focuses is freshman-year retention, so we are highly motivated in your first year to work with you to develop a plan for academic success. Your advisor will meet with you on a one-to-one basis and introduce you to the Clark Athletic Center's computer lab--a fully equipped facility open exclusively to UMB student-athletes.

Your academic advisor will also work with your professors. Your instructors will update the athletic department with progress reports, and when you are having trouble, they will let us know. But more importantly, they'll let us know how we can help you.

As a student athlete at UMass Boston you will have unique opportunities to represent the University on a national level and in national programs.

Sports Medicine

Quite simply, the sports medicine center at UMass Boston is one of the best in the area. It combines the best facility with the best people -- all with the goal of keeping Beacon student-athletes healthy.

The sports medicine room falls under the direction of head athletic trainer Ed Perkins, a UMass Boston graduate and former athlete with the Beacons. Before taking over at UMB, Ed worked with the nationally ranked men's basketball team at Temple University before returning to Division III athletics at MIT and at Bridgewater State College.

Shannon Soares, a certified athletic trainer in her own right, is the university's assistant athletic trainer. Shannon's credentials include a stint with Dennis-Yarmouth High School as its head athletic trainer and two summers working with top major league baseball prospects in the prestigious Cape Cod League.

What that means to you is that when you become a member of the Beacons, you are in the safest environment possible. Whether it be injury prevention, evaluation, treatment, or rehabilitation, the training staff at UMass Boston is looking out for you.

Before you are eligible for competition, you will be required to undergo a thorough physical examination. You will be monitored throughout the training phase and competitive season. And the training staff works closely with your head coach to make your participation in Beacon athletics as safe as it can be.

To ensure quality individual care, the training staff regularly acquires the latest and most effective modalities. The sports medicine center at UMass Boston is equipped with a four-channel electrical stimulation with combination ultrasound unit, a paraffin bath, two hydrocollator units, a Jobst compression unit and a whirlpool bath.

Strength & Conditioning

The University of Massachusetts Boston is one of the few NCAA III schools in the country to offer a year round strength and conditioning program.

The varsity weight room is designed to improve all areas of athletic performance for all sports. The strength and conditioning coach is a certified professional. The focus is to educate and train athletes on how to properly execute exercises that will allow them to be more efficient with the sports specific movements and enable them to participate with a reduced chance of injury. Our goal is to produce athletes who are faster, stronger and more powerful, in order for them to compete at their highest level.

Serving The Community

Intercollegiate athletics, intramurals and recreation for students, staff and faculty are the primary programs of the UMass Boston Department of Athletics. The department offers 18 varsity sports and is a member of the NCAA's Division III. UMass Boston has teams competing in the ECAC, the Little East Conference and ECAC East Ice Hockey. Ninety-three Beacons in seven sports have been named All-Americans. The women's indoor and outdoor track and field teams had an outstanding record of achievement, including four NCAA Team Championships and 37 individual NCAA Championships.

But the Department of Athletics has another important concern as well--service to the community. Whether it's complimentary use of the University's athletic facilities, coaches' and student athletes' sports clinics for youth groups, or holiday visits to area hospitals, UMass Boston Athletics is in the forefront of serving area neighborhoods and communities throughout the state and communities throughout the state.

- More than 150 school, charitable, government and private organizations use UMass Boston athletic facilities each year at little or no cost.
- Over 2,500 people visit our athletic facilities each year, as participants or spectators.
- UMass Boston's indoor and outdoor athletic facilities are in use by visitors for over 2100 hours each year.
- In 2007 the National Consortium for Academics and Sports named the Department of Athletics at UMass Boston as # 1 in the country among Division III institutions and seventh overall for Community Service.
- UMass Boston was named "Honorable Mention" by the National Association of Division III Athletics Administrators/Jostens in the category of *An Array of Projects or Activities in 2005*.

UMass Boston is in a unique position as the only public university in the City of Boston. For that reason, the University has a responsibility above and beyond its mission to provide a superior higher education at moderate cost to the people of the metropolitan area. Because of its urban environment and its spacious, coastline location, the University can reach out to its neighbors and provide first rate facilities for healthy, stimulating sports and recreational activities.

National Consortium for Academics and Sports member institutions develop Outreach and Community Service programs with current student-athletes and former student-athletes from the Degree Completion Program. Over the last 22 years, NCAS member institutions, through their outreach and community service programs, have reached more than 16.5 million youth nationwide with messages about violence prevention, gender sensitivity, conflict resolution, the importance of academics and athletics, staying in school, the dangers of drugs and alcohol, and much more. Since 1985, NCAS student-athletes have given over 18 million hours of community service.

National Consortium for Academics and Sports Outreach Honor Roll for 2006-07

Florida State University	156,750
University of Nebraska	151,350
University of Maryland	131,697
University of Louisville	90,000
University of Alabama	48,450
University of California, Los Angeles	42,500
University of Massachusetts, Boston	41,327
University of Notre Dame	35,000
University of Central Florida	25,275
University of North Carolina, Chapel Hill	20,500
Michigan State University	20,000
Rutgers University	20,000
University of Connecticut	18,500
University of Illinois, Chicago	15,000
Northern Arizona University	12,250
Texas A&M University	11,500
Canisius College	10,000
Lehigh University	9,909
University of Houston	9,250
Fairfield University	9,050
University of Rhode Island	9,000
University of Cincinnati	7,500
The Pennsylvania State University	7,300
Oklahoma State University	6,790
California State University, Dominguez Hills	6,500
University of Kentucky	6,500
Temple University	6,000
Tulane University	6,000

There is no one way to conduct school outreach programs. It is clear from the great work done by NCAS members that there are many ways to provide quality programs. Their diversity and contributions to our nation is extraordinary.

- Boston Medical Center Christmas Toy visit – Men's Basketball distributed toys for sick kids
- Community Servings – Men's and Women's Ice Hockey teamed up to sell pies to benefit Boston's only free, home-delivered meals program for individuals and families with life-threatening diseases
- Homeless Veterans Shelter – Baseball lent a hand to the homeless, making a visit during the first week of December.
- Martin Luther King Day – Athletes cooked and served dinner to Harbor Point residents
- Rhett Syndrome Research Foundation – Women's Ice Hockey helped to raise money during the Rett Syndrome Strollathon.
- Beacon Dash – Cross Country teams sponsor and run the event with proceeds going to the Early Learning Center
- Bring Your Child to Work Day – Womens' basketball ran a clinic for 30 kids along with arts and crafts

Clark Athletic Center

The student athlete at UMass Boston has a wealth of athletic and recreational facilities available within the confines of the Clark Athletic Center.

The athletic center has served as the home of the Beacon basketball program since its completion in 1981.

Named for Catherine Forbes Clark, a former trustee of the University of Massachusetts system and prominent Dorchester civic leader, the Clark Athletic Center emulates its namesake by serving the University community as well as area residents throughout the year.

Considered one of the finest athletic and recreational facilities in Greater Boston, the complex accommodates the school's 18 intercollegiate sports and extensive intramural program. The Center's building houses a main gymnasium, which includes a 3,500-seat basketball arena along with three auxiliary basketball courts and two volleyball courts, a 1,000-seat ice rink, and an Olympic-size swimming pool with a high-dive area, six 25-yard lanes and an observation deck. A

weight room, creative and combative rooms and a sports medicine area round out the interior of the structure.

Outside the building, UMass Boston boasts an eight-lane 400-meter track, eight tennis courts, a softball diamond and two multipurpose fields primarily used for soccer and lacrosse. The outdoor facilities also include a boathouse and dock for the sailing program as well as several recreational fields.

In addition to extensive use by the intercollegiate and intramural programs, the Clark Athletic Center serves as the

site for numerous community activities. Included in the list of community activities are a variety of events for both youth and the physically challenged. UMass Boston hosts the National Youth Sports Program, an NCAA-sponsored summer camp for inner-city youth, as well as the Dana Barros Basketball Camp, the All Dorchester Sports League, the Boston Youth Games, the Boston Housing Authority Jamboree, the Bay State Games and MIAA state tournament games in soccer, ice hockey and basketball.

The athletic center became the new home of the Boston Shootout, the premier high school basketball tournament in the nation, in 1997 and has served as a workout facility for the Boston Celtics and the 2000 McDonald's All-American High School Basketball team, while also serving as the site of the Sprite Slam Jam. During the summer of 1999, the center began hosting the Shaw's

Summer Pro League, featuring current and future stars of the NBA. The center also hosts the Indiana Pacers and San Antonio Spurs during the NBA season, serving as a practice site for both of those teams on their visits to Boston.

The Clark Athletic Center saw its most excitement for 2000 in just one night when on October 3rd, the University hosted the first United States Presidential Debate of 2000. When the parties finally agreed to the Boston debate, the event was suddenly only two weeks away. In that time frame the Clark Athletic Center had to be converted into a debate hall and the adjacent hockey rink into a media center, replete with red carpet, approximately 700 phones, more than 70 televisions, and accommodations for almost 1,600 media representatives from around the world. The complex has also doubled as a concert venue, hosting multiple-Grammy winning artist Kanye West in 2006 as well as the O'Jays and Common in 2007.

UMass Boston also boasts one of the finest personal fitness facilities in the area in the Beacon Fitness Center. The state-of-the-art recreational area provides students, faculty and staff with modern equipment in a clean environment.

UMass Boston Hall of Fame

The Hall of Fame recognizes and honors former outstanding UMass Boston/Boston State College student-athletes, coaches, administrators and friends of the athletic program for their accomplishments and services to the Department of Athletics.

Pat Spurduto ~ Football - UMass Boston
Wayne Starkey ~ Men's Ice Hockey - Boston State

Opportunities for UMB Athletes

As a student athlete at UMass Boston you will have unique opportunities to represent the University on a national level and in national programs.

NCAA CHAMPS/LIFE SKILLS

The 2000-01 school year marked the department's first year as a member of the NCAA's CHAMPS/Life Skills program. Presently, 323 institutions and six conference offices now participate in this NCAA supported life skills program. The NCAA mission of CHAMPS/Life Skills is "committed to a comprehensive program that provides educational experience and services in order to develop well balanced lifestyles for student-athletes; to encourage growth in decision making, planning and fulfillment of career and life goals."

The CHAMPS/Life Skills program will be presented this year at UMB through the development of workshops/guest speakers that address identified life skill needs in the five commitment areas of this program.

As part of our membership in CHAMPS/Life Skills, each year one

STUDENT ATHLETE ADVISORY COUNCIL

The Student Athlete Advisory Council (SAAC) is comprised of student athlete representatives from each of UMass Boston's teams. The purpose of the organization is to promote all UMB sports and provide student athletes an opportunity to impact those issues that affect their daily lives.

SAAC is the student athlete's voice and their vehicle to implement new ideas and influence positive change to enhance the student-athlete experience at UMass Boston.

Members of each team will nominate and select an eligible student athlete to represent their sport on the SAAC. An alternate will also be selected, in the event that the designated representative cannot attend a meeting. It is expected that each team will be represented at every scheduled meeting/event.

Throughout the year, student athletes are encouraged to communicate ideas and concerns to the respective representative of their sport.

SAAC MEMBERS

- Ryan Norton (Men's Cross Country) - President
- Johnny Ruiz (Men's Lacrosse) – President
- Paul Braude (Men's Tennis) - Vice President

- Giovanna Small (Women's Volleyball)
- AJ Titus (Men's Basketball)
- Lauren Vargas (Women's Soccer)
- Stephanie Vasquez (Women's Basketball)

Student Housing Options

OFFICE OF *Student Housing Services*

HOUSING PARTNERSHIPS

UMass Boston has established partnerships with apartment complexes in proximity to the campus. Through these partnerships, UMass Boston students are offered a variety of arrangements that might include reduced rents, special provisions for deposits, or furnished units.

One of our partnerships is Harbor Point Apartments. The Harbor Point Complex is adjacent to the campus and offers one and two bedroom/two bath units that can serve one to four students. Amenities include ocean-side living, a short walk to campus, parking, fitness center. Please contact the Office of Student Housing for more information.

COMMUNITY ADVOCATES

Each academic year, The University of Massachusetts Boston appoints two graduate students who will reside in the partnership apartment complexes to promote a sense of community among students living there. These community advocates organize community-building, cultural, and social events, educate students about being responsible tenants, and counsel students who have roommate issues.

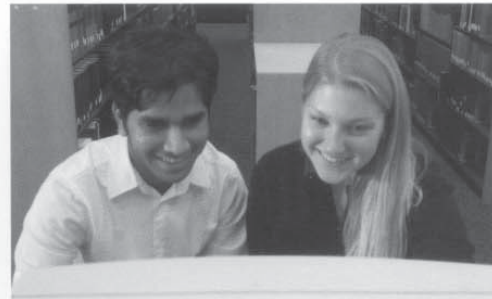

THE OFFICE OF STUDENT HOUSING WEBSITE

Prospective landlords and roommates can register themselves on the Office of Student Housing website:

www.umb.edu/students/housing

The site's listings are organized in the following categories:

- **Long-Term Housing Opportunities**
Apartments, houses, and rooms to rent, sublet, and share
- **Roommate Opportunities**
Names of students and other members of the university community who are looking for a place to live
- **Short-Term Housing Opportunities**
Hotels, motels, inns, bed-and-breakfasts, hostels, dormitories, and home-stay programs offering short-term lodging
- **Other Resources**
Information about tenants' rights, rental services, riding the MBTA, handicapped-accessible housing, and more.

College Degree Programs

Five Colleges to Choose From

When you apply, you'll be seeking admission to one of five UMass Boston college that conduct degree programs for undergraduates. The colleges are briefly described here. Your choice of a college means that you'll be expected to complete a major offered by your college, but it doesn't limit you to courses within your college. For example, science students routinely take liberal arts courses, and vice versa, while both liberal arts and science students can arrange to minor in management.

The College of Liberal Arts

The College of Liberal Arts (CLA) offers students the chance to study the rich diversity of human achievement and to examine critical social problems through explorations-guided by exceptional scholars and teachers-of the humanities, social sciences and fine performing arts. Liberal arts courses help students develop good critical thinking skills and strong abilities in oral and written communication. These are the transferable skills that employers seek. CLA prepares its undergraduate students for further study and for the world of work in a wide variety of careers ranging from law to teaching and from business to the arts. CLA also conducts graduate programs leading to the MA and PhD degrees. To learn more, visit www.umb.edu/academics/cla.

The College of Management

The College of Management (CM) takes pride in the special relationship between its students and faculty. Together they create an educational experience that empowers graduates to succeed in a wide variety of managerial positions in the private and public sectors, locally, nationally and abroad. The breadth of its research and professional experience enables the CM faculty to teach the full range of functional skills needed both for the management curriculum and for rewarding careers in business. Internationally accredited by the Association to Advance Collegiate Schools of Business (AACSB International), CM offers the BS degree in management, the MBA (Master of Business Administration), the MSA (Master of Science in Accounting) and the MSIT (Master of Science in Information Technology). To learn more, visit www.management.umb.edu.

The College of Nursing & Health Sciences

The College of Nursing and Health Sciences (CNHS) has earned a reputation for first-rate teaching and research combined with practical clinical experience. Graduates are found in all the Boston area's world-renowned medical facilities. The college offers BS, online RN-to-BS, MS, and PhD degree programs in nursing and a BS degree in exercise and health sciences. Nursing students at all levels of the program are involved in health care and the prevention of illness, with clinical experience beginning in their sophomore year. Exercise and health sciences students are engaged in fitness and health education, and graduates fill the ranks of professionals in fitness centers, health clubs and rehabilitation facilities. To learn more, visit www.cnhs.umb.edu.

The College of Public & Community Service

The College of Public and Community Service (CPCS) provides an empowering and effective education to people who are committed to working for social justice, and who want to promote positive development in their communities. CPCS offers innovative and exciting opportunities for students pursuing professional careers in public and community service, policy, advocacy and organizing. CPSC is distinguished by its competency-based system of education, by the innovative learning options it provides, and by its commitment to interweaving college and community to promote full participation in society through educational programs and professional practice. CPCS undergraduates pursue the BA degree; the college also offers graduate programs leading to the MA. To learn more, visit www.cpcs.edu.

The College of Science & Mathematics

The College of Science and Mathematics (CSM) at UMass Boston is strongly committed to the integration of research and teaching in its programs. CSM students' education is enhanced by opportunities to participate in independent research in productive and exciting research laboratories. The college is involved in such areas as monitoring the coastal environment, preserving diversity in the deep sea and the tropical rain forest, computer mapping, green chemistry, bioinformatics, database programming, creating devices to enhance medical imaging, and other exciting investigations. Its undergraduate and graduate programs lead to the BS, BA, MS and PhD. To learn more, visit www.csm.umb.edu.
