MANAGEMENT COUNCIL REPORT

The Division I Management Council approved legislation at its April 14 meeting in Indianapolis that sets minimum English and math requirements for transfers from two-year colleges who are non-qualifiers, sending the measure to the Board of Directors for final approval. The Council met April 14 in Indianapolis.

The measure, which goes to the Board of Directors for possible adoption next week, would require two-year transfers who do not meet minimum academic standards for financial aid, practice and competition to have six semester or eight quarter hours of English and three semester or four quarter hours of math that transfer toward a degree at the accepting four-year institution. The effective date was delayed until August 1, 2009.

In other legislative items, the Council approved and sent to the Board a proposal allowing walk-on student-athletes in baseball to use the one-time transfer exception. The Council also advanced proposals that:

- Allow institutions to provide meals or cash in conjunction with competition within a certain time frame
- Eliminate time limits on athletically related activities for student-athletes with exhausted eligibility
