Charles Benedict Calvert founded the Maryland Agricultural College in 1856 with the goal of creating a school that would offer outstanding practical knowledge to him and his neighbors and be “an institution superior to any other.”

One hundred and fifty years later, the University of Maryland has blossomed from its roots as the state’s first agricultural college and one of America’s original land grant institutions into a model of the modern research university. It is the state’s greatest asset for its economic development and its future, and has made its mark in the nation and the world.

Calvert would be astounded by the depth and breadth of research activities, innovative educational programs, and the single-minded pursuit of excellence that are part of the University of Maryland today. Maryland is ranked 18th among the nation’s top public research universities by U.S. News & World Report, with 31 academic programs in the Top 10 and 86 in the Top 25. It is also ranked No. 37th in the world, according to the Institute of Higher Education at Shanghai’s Jiao Tong University.
Maryland is the state’s premier center of research and graduate education and the public institution of choice for undergraduate students of exceptional ability and promise. The faculty includes four Nobel laureates, six Pulitzer Prize winners, a three-time Emmy Award winner, more than 40 members of national academies and scores of Fulbright scholars. The university focuses great attention on the highest academic standards, affordability for all qualified students, and a President’s Promise program that guarantees opportunity for extraordinary extracurricular and professional experiences for each student.

It has earned a national reputation for its enriched educational experiences for undergraduates, including such widely imitated living/learning programs as College Park Scholars; Gemstone, a unique program that brings teams of students together from across disciplines to tackle specific technical problems; and the Hinman CEO Entrepreneurship Program, sponsored jointly by the A. James Clark School of Engineering and the Robert H. Smith School of Business, and widely recognized as the most successful student entrepreneurship program in the nation.

These programs are guided by outstanding faculty whose accomplishments in research abound. Whether the issue is Mideast peace, cutting-edge research in nanoscience, homeland security or bioscience advances, Maryland faculty are selected for national leadership and are making news. Many recent major faculty initiatives receiving significant external support strengthen our homeland security endeavors—centers for research on agrosecurity and emergency management; intermodal freight transportation security; behavioral and social analyses of terrorism and responses to terrorism; astrophysics and advanced world climate and weather prediction; and a national Center for Advanced Study of Language.

In addition to its academic prowess, Maryland is also home to the Terrapins, whose athletic achievements are a perennial source of pride for nearly 250,000 alumni and residents of the state. In 2005-2006, the Terrapins brought home national championships in four sports — men’s soccer, field hockey, competitive cheer and women’s basketball — more than any university in the nation.

Whether aiming for the skies or pioneering journalism programs in China, the University of Maryland is surging ahead. Building on the work of outstanding faculty and students, and with the loyal support of alumni and friends, Maryland is moving aggressively and confidently to a decade that will shine brighter than any other in its history.

President C.D. Mote Jr.

In September 1998, C. D. (Dan) Mote, Jr. began his tenure as President of the University of Maryland and Glenn L. Martin Institute Professor of Engineering. He was recruited to lead the University of Maryland to national eminence under a mandate by the state. Since assuming the presidency, he has encouraged an environment of excellence across the University and given new impetus to the momentum generated by a talented faculty and student body. Under his leadership, academic programs have flourished. In 2005, the University was ranked 18th among public research universities, up from 30th in 1998.

President Mote has emphasized broad access to the university’s model, enriched undergraduate curriculum programs and launched the Baltimore Incentive Awards Program to recruit and provide full support to high school students of outstanding potential who have overcome extraordinary adversity during their lives.

He has spurred the university to lead the state in the development of its high-tech economy, especially in the information and communication, bioscience and biotechnology, and nano-technology sectors. President Mote has greatly expanded the university’s partnerships with corporate and federal laboratories and successfully negotiated to bring to the College Park area the first Science Research Park sponsored by the People’s Republic of China. Under his leadership, the University has established a research park, The University of Maryland Enterprise Campus, M-Square, located on a 115-acre site adjacent to the University of Maryland/College Park Metro with 3 million square feet of development potential. Among its first tenants are the Center for Advanced Study of Language, a joint venture of the University and Department of Defense, and the National Oceanic and Atmospheric Administration’s new World Weather and Climate Prediction Center.

During President Mote’s second year in office, the University began the largest building boom in its history, with more than $100 million in new projects breaking ground that year. New facilities address every aspect of university life, from the arts to recreation to classrooms and laboratories, and, in creative partnership with the private sector, new residential facilities. Highlights of the construction activity include the stunning Clarice Smith Performing Arts Center; the Comcast Center, a state of the art sports complex; a high tech research greenhouse; and new classrooms for chemistry, computer science, business and engineering. President Mote also led the development of a new Facilities Master Plan for development in the next 20 years, which is noted for its emphasis on environmental stewardship.

Dr. Mote is a leader in the national dialogue on higher education and his analyses of shifting funding models have been featured in local and national media. He has testified on major educational issues before Congress, representing the University and higher education associations on the problem of visa barriers for international students and scholars and on deemed export control issues. He has been asked to serve on a high level National Academies Committee appointed at the request of the Senate Energy Subcommittee of the Senate Energy and Natural Resources Committee to identify challenges to United States leadership in key areas of science and technology and to be a member of the Leadership Council of the National Innovation Initiative, an activity of the Council on Competitiveness. He has served as vice chair of the Department of Defense Basic Research Committee, and is a member of the Council of the National Academy of Engineering. In 2004-2005, he served as President of the Atlantic Coast Conference. In its last ranking in 2002, “Washington Business Forward” magazine counted him among the top 20 most influential leaders in the region.

Prior to assuming the Presidency at Maryland, Dr. Mote served on the University of California, Berkeley faculty for 31 years. From 1991 to 1998, he was Vice Chancellor at Berkeley, held an endowed chair in Mechanical Systems and was President of the UC Berkeley Foundation. He led a comprehensive capital campaign for Berkeley that raised $1.4 B. He earlier served as chair of Berkeley’s Department of Mechanical Engineering and led the department to its number one ranking in the National Research Council review of graduate program effectiveness.

Dr. Mote’s research lies in dynamic systems and biomechanics. Internationally recognized for his research on the dynamics of gyroscopic systems and the biomechanics of snow skiing, he has produced more than 300 publications, holds patents in the U.S., Norway, Finland and Sweden, and has mentored 56 Ph.D. students. He received a B.S., M.S. and Ph.D. in mechanical engineering from the University of California, Berkeley. President Mote has received numerous awards and honors, including the Humboldt Prize awarded by the Federal Republic of Germany. He is a recipient of the Berkeley Citation, an award from the University of California-Berkeley similar to the honorary doctorate, and was named Distinguished Engineering Alumnus. He has received two honorary doctorates. He is a member of the U.S. National Academy of Engineering and serves on its Council, and is a member of the American Academy of Arts and Sciences. He was elected to Honorary Membership in the ASME International, its most distinguished recognition, and is a Fellow of the International Academy of Wood Science, the Acoustical Society of America, and the American Association for the Advancement of Science. In Spring 2005, he was named recipient of the 2005 J. P. Den Hartog award by the ASME International Technical Committee on Vibration and Sound to honor his lifelong contribution to the teaching and/or practice of vibration engineering. In Fall 2005, he received the 2005 Founders Award from the National Academy of Engineering in recognition of his comprehensive body of work on the dynamics of moving flexible structures and for leadership in academia.

He and his wife of over 40 years, Patricia Mote, have two married children, Melissa and Adam, and four grandchildren. Patsy Mote has continued her strong support of the arts and is spokesperson for the Clarice Smith Performing Arts Center and a member of Prince George’s County Arts Commission.

Deborah A. Yow
Director of Athletics • 15th Year at Maryland

Deborah A. Yow is in the 15th year of her outstanding tenure as director of athletics at the University of Maryland, a tenure that has seen unprecedented success and achievement in Maryland athletics. In Yow’s 14-plus years at Maryland, the Terrapins have won a remarkable 16 national championships and graduated student-athletes at an enviable rate as Maryland athletics has soared to sustained new heights among the nation’s elite intercollegiate athletic programs.

The comprehensive success of Terrapin athletics under Debbie Yow’s leadership is a clear and compelling testimony of her values of excellence, teamwork and accountability.

Likewise, her prior election to the presidency of the National Association of Collegiate Directors of Athletics is an indication of the wide respect with which she is regarded among its 6,100 members representing 1,600 colleges and universities in the U.S. and Canada. She serves as the current President of the national Division I-A Athletic Directors Association and is a member of the Board of Directors of the National Football Foundation, as well as the Board of Directors of USA Football and the NCAA Division I Men’s Basketball Academic Enhancement Committee.

She has been honored by Street and Smith’s Sports Business Journal as one of the 20 most influential people in intercollegiate athletics, was cited in The Chronicle of Higher Education in October 2007 as one of the “Ten Most Powerful People in College Athletics/The Builder” and she has received the Carl Maddox Sport Management Award presented by the United States Sports Academy for excellence in athletics administration.

Dr. Yow was selected to serve on the U.S. Department of Education’s Commission on Opportunities in Athletics to review the status of Federal Title IX regulations. She served as the chair of the Atlantic Coast Conference Committee on Television. The committee is charged with overseeing the league’s TV contracts and dealing with issues related to television, including multi-year ACC football and basketball contracts with ABC, ESPN, ESPN2 and syndication entities.

Additionally, she has represented intercollegiate athletics with presentations in a number of prominent settings such as the Harvard University School of Law conference on “Shaping the Future of Collegiate Athletics” and the Street and Smith’s Sports Business Journal “National Forum on the Direction of Intercollegiate Athletics” in New York.

Yow, who has served on the NCAA Management Council and the NCAA Division I Budget Committee, is a strong and steady voice on behalf of intercollegiate athletics in America.

Since taking over as AD at Maryland in 1994, she and her staff have:

- Transformed Terrapin athletics into a responsive, goal-oriented organization with 27 sports and more than 700 student-athletes.
- Balanced all 14 of the department’s annual budgets (none of the budgets were balanced in the 10 years prior to her arrival). The budget now approaches $60 million annually and the $51 million debt which her administration inherited has been reduced to $7.6 million.
- Greatly enhanced the academic support services provided for student-athletes, with an enviable exhausted eligibility graduation rate of approximately 85 percent for student-athletes at Maryland. Academic outcomes and student-athlete welfare have received consistent and focused attention.
- Led the Terrapins to a national all-sports ranking in the upper 7 percent of all NCAA Division I institutions.
- Significantly expanded marketing and fund-raising efforts on behalf of Terrapin athletics. As a result, private gifts to athletics have increased over 350 percent and corporate sponsorship revenues have increased by over 300 percent during her tenure at Maryland.
- Continued to dramatically improve venues and facilities for the department’s 27 teams. The 18,000-seat Comcast Center for men’s and women’s basketball and other sports that use the facility is a prime example of the remarkable $250 million upgrade of athletic facilities.

Street & Smith’s Sports Business Journal Named Deborah A. Yow One Of The 20 Most Influential People In College Athletics.

Yow with several Terrapin student-athletes at the annual Welcome Back Picnic.
• Developed a comprehensive Internet strategy with management, marketing and fund-raising applications.

• Significantly improved customer care in every area of Maryland athletics.

The most recent achievements of Maryland athletics are exceptional:

• Maryland captured a remarkable seven national championships during the past three seasons.

• In the recent academic year, the Terrapins achieved the highest student-athlete graduation rate in the history of Maryland athletics and had the highest graduation rate of any public institution in the Atlantic Coast Conference.

• Fundraising for Maryland athletics set a historic mark of $24.7 million in 2006-07.

• Maryland was selected by U.S. News & World Report and Sports Illustrated as one of the Top 20 athletic programs in the nation (for overall quality and competitive excellence).

• In 2005-06, Maryland Athletics won the inaugural PRISM Award as the best-managed Division I collegiate athletics program in the nation.

• Maryland was ranked as the sixth-finest athletic program in the nation by the Center for the Study of Intercollegiate Athletics, based on comprehensive criteria such as graduation rates, financial efficiency, equity effectiveness and competitive excellence.

• In men’s basketball, the Terps won the Atlantic Coast Conference title over Duke in the championship game in 2004 and won the NCAA National Championship in 2002. Under Coach Gary Williams, the men’s basketball team appeared in 11 consecutive NCAA Tournaments and in 12 of the last 15 tournaments.

• Women’s basketball won the 2006 NCAA National Championship under head coach Brenda Frese, completing an amazing turnaround that saw the program go from a 10-18 record to a National Championship in four seasons.

• In football, the Terps won the 2001 Atlantic Coast Conference championship and played in the 2002 Orange Bowl, followed that with an 11-win season and a 30-3 victory over the University of Tennessee in the Peach Bowl, again followed by a 10-win season and a 41-7 win over West Virginia in the Gator Bowl on New Year’s Day 2004. In the 2006 season, Maryland returned to the bowl scene, where the Terps defeated Purdue, 24-7, in the Champs Sports Bowl, and in 2007 was selected to play Oregon State in the Emerald Bowl in San Francisco. Graduation rates in football are exemplary and the program was recently recognized by the American Football Coaches Association for its academic excellence under Coach Ralph Friedgen.

• Additionally, Maryland is one of only three universities in the nation to win National Championships in men’s basketball, women’s basketball and football. Stanford and UCLA are the other NCAA Division I institutions to achieve that mark.

• Set an ACC single-game record for women’s basketball attendance by drawing 17,950 to a regular-season game at Comcast Center and led the ACC in season attendance.

• Hired Dave Cottle, the sixth-winningest active men’s lacrosse coach in the U.S., who guided his team to the NCAA Final Four in three of his first four seasons.

• Field hockey earned National Championships in 2005-06 and in 2006-07, and has become a perennial participant in the Final Four in that sport.

• In women’s lacrosse, hired Cathy Reese, who was named the 2007 ACC Coach of the Year in her first season as coach of the Terps.

• Men’s soccer has appeared in four Final Fours in the past six years and won the NCAA National Championship.

• Football facilities have been significantly enhanced with team house, stadium and practice field upgrades. The Football Academic Center was the first improvement, as it took priority over all other initiatives.

• In 2006-07, 16 Maryland teams competed in postseason play.

• The productivity, morale, and the competitive and academic achievement of Terrapin athletics are exceptional and continue to gain momentum.

Regarding the many achievements of Terrapin athletics over the past 14 years, Yow says, “We are pleased, but we are not satisfied... our vision is to be one of the Top 5 programs in the nation consistently... we see no reason to settle for less.”

Yow is known for her goal-oriented and proactive management style. She consistently inspires and challenges those around her to “raise our sights and sharpen our tools... to work hard and work smart... to recognize that our only limitations are those that we place upon ourselves.”

As a manager and a leader, she clearly models these principles. She is the only known current AD in NCAA Division I who has hired both the National Coach of the Year in men’s basketball (while at Saint Louis University) and the National Coach of the Year in women’s basketball (while at Saint Louis University). In 2002, she also brought to the University of Maryland Brenda Frese, who at that time was the National Coach of the Year in women’s basketball. Four years later, Frese led the Terrapins to the NCAA National Championship at the Women’s Final Four in Boston.

Dr. Yow is known as “a coach’s A.D.,” while also being highly organized and a strategic and proactive leader and administrator. Quite simply, Debbie Yow personifies the relational and management dynamics that are necessary to be an excellent administrator and leader.

A successful former basketball coach, she moved into athletics administration at the University of Florida and the University of North Carolina, Greensboro, followed by a successful tenure as A.D. at Saint Louis University.

She has authored numerous articles and books on athletics management and human behavior, and is a respected leader in intercollegiate athletics in the United States. She holds a bachelor’s degree from Elon University, a masters degree from Liberty University and a doctorate (honorus causa) from the U.S. Sports Academy and an honorary doctorate for career achievement from Elon University.

Summing up the entire Maryland athletics program, our athletics director recently stated, “We have the finest student-athletes, coaches, support staff and administrative team in America. It is because of their courage, hard work and cooperative spirit that we now have a strong, viable athletic program. I am immensely proud of each of them. I am equally proud of our Terrapin fans who buy tickets, our Terrapin Club members who faithfully support the Maryland athletic program with their donations for scholarships, and the M Club members who serve and give liberally. We are also blessed with a terrific President, Dr. Dan Mote, who has fostered a mindset of excellence across our institution. He is a strong and balanced advocate for what he calls ‘the three A’s of the University – Academics, the Arts and Athletics’. We have a great Terrapin family. That’s the foundation for all of our success... and the basis for our bright future. It’s a great time to be a Terp.”

Deborah Yow with Under Armour founder and Maryland alumn Kevin Plank.
UNDER ARMOUR® IS THIS GENERATION’S ATHLETIC BRAND OF CHOICE. UA PIONEERED THE PERFORMANCE APPAREL INDUSTRY, AND WE CONTINUE TO DELIVER UNDENIABLE ADVANTAGES TO ATHLETES, FROM TRAINING TO GAMEDAY.

UNDER ARMOUR® IS PROUD TO OUTFIT MARYLAND BASKETBALL WITH THE WORLD’S MOST ADVANCED PERFORMANCE GEAR.
Athletic Development

Terrapin Club

Athletic excellence is a tradition at the University of Maryland—a tradition alumni and friends alike want to see continue and flourish. That's why we are inviting you to be a member of the Maryland Athletics Family by joining the Terrapin Club. Whether you are an alumnus of the University of Maryland or a friend interested in supporting the state's flagship campus, belonging to the Terrapin Club enables you to:

- Provide annual scholarship support for our student-athletes who will contribute to the community
- Share our vision to fully scholarship all sports to best represent the University
- Take pride in the achievement of athletic excellence
- Participate in the camaraderie and fellowship unique to Terrapin Club members
- Receive a tax deduction for your financial contribution for scholarships
- Enjoy access to great benefits including priority seating in Byrd Stadium for football and Comcast Center for basketball, priority parking and tickets to other events

At Maryland, the Department of Intercollegiate Athletics operates without significant University funding and receives no state appropriations or tax dollars for operational expenses. Sanctioned by the University of Maryland College Park Foundation, 100% of the funds raised through the Terrapin Club are managed by the Foundation for the exclusive use of Maryland Athletics. Your contribution directly supports an annual student-athlete scholarship cost of over $8 million and Terrapin Club and department expenses. The Terrapin Club provides scholarship support to many of the 700 student-athletes who compete on 27 varsity team representing the University of Maryland.

Getting Involved

Direct Gifts are the most common way of contributing. They are made in the form of cash, stock, checks or credit card (Visa, MasterCard, American Express or Discover). For your convenience, a personal checking account can be debited a set amount every month.

In many cases, corporate matching gifts may be used to make your Terrapin Club contribution. Please contact your employer to see if you are eligible for a matching gift program.

Major Gifts Fundraising

In the Fall of 2006, the University of Maryland publicly launched Great Expectations: The Campaign for Maryland, a $1 billion fundraising effort that will transform the University from excellence to greatness. Intercollegiate Athletics, one of the most visible units of the University will seek to raise a total of $133 million to: (1) enhance and improve competition, practice and training facilities for a number of our teams; (2) fund annual scholarships for student-athletes; and (3) endow student-athlete scholarships, coaching positions and teams.

A centerpiece of the ambitious Great Expectations fund raising campaign is an enhancement to Chevy Chase Bank Field at Byrd Stadium, for which construction began in 2007. Phase one of this project, which is scheduled for completion for the 2009 season, includes the expansion of Tyser Tower along the South concourse to add 64 luxury suites of varying sizes and 440 mezzanine seats (featuring heated and covered seating and food service); a University suite with seating for 200 guests; new work areas for television, radio and print media; new work areas for coaches and game day operating staff; a new game-day merchandise outlet; and enhanced seating for disabled customers.

Phase two includes the installation of railings in the North and South lower bowl to enhance fan safety and comfort, and chair back seating in the 200 level on the North side. The playing field will be lowered to improve sight lines for seats on the lower rows, converting a number of those seats from obstructed view to some of the best views in the stadium. Additionally, all of the blue roofs in the stadium will be painted.

Future expansion for football facilities includes renovation of Gossett Football Team House to enlarge the locker room and training areas, as well as the transformation of the West End Zone with the addition of nearly 8,000 seats which will bring stadium capacity to approximately 60,000 seats. This expansion plan is an ambitious one. Critical to its success is the leasing of all available Suites within the expanded Tyser Tower. You can support the proud tradition and future growth of Maryland Football by contributing to the Great Expectations campaign or leasing a luxury Suite at the stadium.

To obtain information on leasing a suite at Byrd Stadium, or any other component of the Great Expectations Campaign for Athletics, please contact the Athletics Major Gifts Office at (301) 314-7020, or toll free at (800) 653-7667, by email at terrapinclub@umd.edu, or visit www.GreatExpectationsAthletics.com
The University of Maryland is committed to providing the highest quality education to all of its students. The Department of Intercollegiate Athletics strives to provide student-athletes with excellent opportunities to participate in an intercollegiate athletics program of the highest quality, with the result that their athletics participation becomes an integral and valued component of their total educational experience at the university.

Terrapin student-athletes will find that the same hard work and discipline that has earned them success in athletics competition is also required in the classroom. Balancing the significant time demands and responsibilities required to be a successful student-athlete at the highest collegiate level is no small task. Therefore, as a result of their commitment to representing the university through athletics, Terrapin student-athletes are able to utilize support programs designed to meet their specific needs.

Led by associate athletics director Anton Goff, the mission of the Academic Support and Career Development Unit (ASCDU) is to provide quality developmental programs and need-based services that will enhance academic progress, facilitate career development, and encourage the psychosocial growth of all UM student-athletes. Jessica Myers (right) works with the women’s basketball program.

The Gossett Academic Support and Career Development Center for Terrapin student-athletes, named for long-time Terp supporters Barry and Mary Gossett, is located in the Comcast Center. It features a study center that includes 25 desktop computers, a tutoring center, a classroom, a CHAMPS/Life Skills resource room and individual offices for professional academic counselors, a director of enrichment programs, an assistant program coordinator and a graduate assistant. In addition, a new academic wing was added to the Gossett football team house recently. It features offices for two counselors, a program coordinator and three learning specialists; as well as a quiet study area, 29-desk computer lab, classroom, tutor rooms and classroom/lab for the individualized learning program.

Academic courses, programs and services offered by ASCDU include the following:

- Student-athlete orientation
- Academic counseling
- NCAA academic eligibility monitoring
- Academic enrichment and career development presentations and workshops
- Accredited tutorial support
- Individualized learning program
- EDCP 108-K (College learning strategies and skills)
- EDCP 108-M (Math learning strategies and skills)
- UNIV 100 (First-year transitions to the university)

Maryland Gameplan

The Maryland Gameplan is intended to assist graduating Terrapin student-athletes as they begin the job search process. It is distributed to more than 500 corporations and businesses across the country, in addition to being featured on the M Club website. Prospective employers are introduced to our graduating student-athletes with resume information relative to academic, career and personal achievements. The Maryland Gameplan directory is produced annually in collaboration with the M Club.

Career Networking Night

Because career development is an ongoing process, ASCDU provides a variety of programs for student-athletes throughout the year. Professional assistance with resume-writing, interviewing skills, graduate school search and job search is readily available to all student-athletes. During the spring semester ASCDU hosts the Career Networking Night, where student-athletes can learn about career interests and career planning. Unlike typical “job fairs,” the purpose of this program is to allow student-athletes to explore multiple career opportunities by speaking directly to individuals in their chosen areas of interest. Employers at the Career Networking Night recognize the marketable qualities student-athletes have gained through athletic participation. Student-athletes learn about opportunities for internships and full-time jobs.

Student-Athlete Advisory Committee

The Student-Athlete Advisory Committee (S.A.A.C.) plays an important role in the Department of Intercollegiate Athletics. It consists of two representatives from each varsity sport and meets on a regular basis with representatives from the athletic administration. The S.A.A.C. mission is to enhance the total student-athlete experience by developing leadership skills, promoting student-athlete welfare and fostering a positive student-athlete image on the Maryland campus, local area and nationally.

CHAMPS/Life Skills Programs

ASCDU houses the NCAA’s (National Collegiate Athletic Association) CHAMPS/Life Skills Program. The ASCDU staff, in collaboration with various other Department of Intercollegiate Athletics’ units and campus resources, strives to provide a systematic personal development program designed to reach each student-athlete based on his or her individual needs. The focus of the program is on the individual academically, athletically and emotionally, and on the changing needs and skills of that individual in the years during college and after graduation. The menu of presentations, workshops and seminars is a comprehensive and balanced system of “life learning” programs promoted for use by each varsity sport team.
Highlights of the CHAMPS/Life Skills Programs:
- Support efforts of every student-athlete toward intellectual development and graduation
- Use athletics as preparation for success in life
- Meet the changing needs of student-athletes
- Promote respect for diversity among student-athletes
- Enhance interpersonal relationships in the lives of student-athletes
- Assist student-athletes in building positive self-esteem
- Enable student-athletes to make meaningful contributions to their communities
- Promote ownership by the student-athletes of their academic, athletic, personal and social responsibilities
- Enhance partnerships between the NCAA, member institutions and their communities for the purpose of education
- Encourage the development of leadership skills

CHAMPS/Life Skills Programs Commitment Statements

Commitment to Academic Excellence
To support the academic progress of the student-athlete toward intellectual development and graduation.

Commitment to Athletic Excellence
To build philosophical foundations for the development of athletic programs that are broad-based, equitable and dedicated to the well-being of the student-athlete.

Commitment to Personal Development
To support the development of a well-balanced lifestyle for student-athletes, encouraging emotional well-being, personal growth and decision-making skills.

Commitment to Career Development
To encourage the student-athlete to develop and pursue career and life goals.

Commitment to Service
To engage student-athletes in service to his/her campus and surrounding communities.

Academic Support For Returning Athletes Program
The Academic Support for Returning Athletes Program was created in 1986 to support the academic efforts of former varsity student-athletes at the University of Maryland, College Park. In 1989, ASRAP was assigned by the President’s Office to the Academic Achievements Program and enrolled 40 students that year. As a member of the National Consortium for Academics and Sports (NCAS), the University of Maryland is committed to assisting its former athletes with degree completion. A key component of the program is community outreach. Each returning student completes a “workshop” that allows the cost of tuition and fees to be exchanged for community services with youth. In 2002, ASRAP moved into the ASCDU.

Undergraduate Programs Of Study

College Of Agriculture And Natural Resources (AGNR)
- Agricultural and Resource Economics
- Agricultural Sciences
- Animal and Avian Sciences
- Biological Resources Engineering
- Environmental Science and Policy
- Landscape Architecture
- Natural Resource Management
- Natural Resource Sciences
- Nutrition and Food Sciences

College Of Arts And Humanities (ARHU)
- American Studies
- Art
- Art History and Archaeology
- Asian and East European Languages and Cultures
- Central European, Russian, and Eurasian Studies
- Classics
- Communication
- Comparative Literature Program
- Dance
- English Language and Literature
- French Language and Literature
- Germanic Studies
- History
- Italian Language and Literature
- Jewish Studies
- Linguistics
- Music
- Philosophy
- Romance Languages
- Russian Language and Literature
- Spanish and Portuguese Languages and Literatures
- Theatre
- Women’s Studies

College Of Behavioral And Social Sciences (BSOS)
- African American Studies
- Anthropology
- Criminology and Criminal Justice
- Economics
- Environmental Science and Policy
- Geography
- Government and Politics
- Hearing and Speech Sciences
- Psychology
- Sociology

College Of Chemical And Life Sciences (CLFSC)
- Biochemistry
- Biological Sciences
- Chemistry
- Environmental Science and Policy
- Microbiology

College Of Computer, Mathematical, And Physical Sciences (CMPS)
- Astronomy
- Computer Engineering
- Computer Science
- Environmental Science and Policy
- Geology
- Mathematics
- Physical Sciences
- Physics

College Of Education (EDUC)
- Art Education (K-12)
- Early Childhood Education
- Elementary Education
- Secondary Education - English
- Secondary Education - Foreign Language
- Secondary Education - Mathematics
- Secondary Education - Science
- Secondary Education - Social Studies
- Secondary Education - Speech and English
- Secondary Education - Theatre and English
- Special Education

Official Medical Team
Sports Medicine

The University of Maryland Department of Intercollegiate Athletics and the University of Maryland Medical Center’s Sports Medicine program have joined forces to provide the best possible medical attention and care to all Terrapin student-athletes.

Says Deborah A. Yow, Maryland’s director of athletics: “When we recruit student-athletes to play for Maryland, we owe them the best education, the best coaching and the best comprehensive health care. It is especially gratifying for us to partner with our medical center in the same fashion as other ACC institutions do with their medical schools.”

Craig Bennett, M.D.
Head Team Physician/Orthopaedic Surgeon
Fifth Year at Maryland

Craig H. Bennett, M.D., is in his fifth season as the head team physician and orthopaedic surgeon for Maryland. Dr. Bennett is the Chief of Orthopaedic Sports Medicine at the University of Maryland. He has also served as the head orthopaedic surgeon for the NFL’s Baltimore Ravens. Prior to his arrival at Maryland, Dr. Bennett was at the University of Pittsburgh where he served as an assistant professor of orthopaedics, as a team physician for Pittsburgh’s athletic department and as the associate team physician for the Pittsburgh Steelers.

A native of Buffalo, N.Y., Dr. Bennett graduated with honors from Brown University in 1985. He earned his medical degree from the University of California at San Francisco and completed his residency in orthopaedic surgery at Emory University in Atlanta, Georgia. He then completed a sports medicine-knee and shoulder fellowship at the University of Pittsburgh and subsequently stayed on staff at Pittsburgh for five years. While at Pittsburgh, he also served as the team physician for the men’s basketball team.

Dr. Bennett was selected to the American Academy of Orthopaedic Surgeons Leadership Fellows Program in 2003-04 and Towson University honored him as their African-American Scholar of the Year in 2004. He is a board certified member of the American Board of Orthopaedic Surgery and a member of the NFL Team Physicians Association.

Darryl Conway
Assistant AD/Sports Medicine
Delaware ’93
Fifth Year at Maryland

Darryl Conway was hired in June 2004 as Maryland’s assistant athletic director for sports medicine after spending three years as the head athletic trainer at the University of Central Florida. Conway oversees all medical and athletic training operations for the Terrapins’ 27 varsity athletic programs.

Conway has been an athletic trainer at both the collegiate and professional levels. At UCF he was the head trainer for the football squad, while supervising the assistant trainers, graduate assistants and student assistants who provide training coverage of Central Florida’s 17 varsity sports. At UCF, Conway was responsible for overseeing the compilation and input of daily medical records, the computerized injury surveillance program and the NCAA injury surveillance system. He served as a clinical instructor/field experience supervisor for athletic training students, assisted in the development of marketing and fundraising projects for the sports medicine department and served as the site coordinator for the NCAA drug testing program at UCF.

Prior to his position at Central Florida, Conway served as the Director of Sports Medicine at the University of Northern Iowa, working as the head trainer for the Panthers’ football and men’s basketball teams from 1999 to 2001. He was the head athletic trainer at Morgan State University in Baltimore for one season and was an assistant trainer and professor at Delaware, his alma mater, for two years. From 1993 to 1996, Conway was an assistant trainer with the NFL’s New York Jets.

Conway earned a bachelor’s degree in physical education studies, magna cum laude, from the University of Delaware in 1993, before receiving a master’s degree in physical education and a certificate in sports management from Adelphi University two years later.

Conway has taught numerous collegiate courses related to athletic training, has made numerous presentations and has co-authored several scholarly publications and book chapters. He has been a member of the National Athletic Trainers’ Association (NATA) since 1989, and is also a member of the United States Weightlifting Federation.

Conway and his wife, Tracy, have a son, Michael.

James Dreese, M.D.
Team Physician/Orthopaedic Surgeon
Third Year at Maryland

Dr. James Dreese serves as assistant team physician for University of Maryland athletic teams. He is an Assistant Professor of Orthopaedics at the University of Maryland Medical Center. He received his undergraduate degree from Penn State University, where he competed on the football team and earned a varsity letter.

After completing his Orthopaedic Surgery residency at the renowned Hospital for Special Surgery in New York, N.Y. he received specialty training in Sports Medicine and Shoulder Surgery at the University of Pittsburgh in Pittsburgh, Pa. He served as a team physician at Davidson University in Charlotte, N.C., prior to joining the Orthopaedic Surgery staff at the University of Maryland.

Dr. Dreese is a subspecialist in the management of shoulder, knee, and elbow injuries.

Yvette Rooks, M.D.
Head Team Physician/Primary Care Physician
11th Year at Maryland

Yvette Rooks M.D., is in her 11th year as a primary care physician for Maryland’s athletics programs. She is also an Assistant Professor and Residency Program Director in the Department of Family and Community Medicine at the University Of Maryland School Of Medicine.

Dr. Rooks received her doctorate of medicine from the State University of New York at Syracuse in 1993. She completed her Family Medicine Residency at the University of Maryland Department of Family and Community Medicine in 1996. She served as Chief Resident from 1995-96.

At the conclusion of her residency Dr. Rooks pursued additional training in the field of sports medicine and completed a fellowship in this area at Kernan Orthopaedic Hospital of the University Maryland Medical System in 1998. Dr. Rooks is Board certified in Family Medicine and has a Certificate of Added Qualification, CAQ, in Sports Medicine.

Dr. Rooks has been a faculty member in the Department of Family and Community Medicine for 11 years. She served as Chair of the Clinical Years Curriculum Committee, which oversees the curriculum for the clinical years of medical training at the University of Maryland Medical School from 2002-2007. She was the Director of Primary Care Sports Medicine Fellowship from July 2005 until January 2008 and has served as the Head Primary Care Team Physician for the University of Maryland at College Park-Terrapins since 1998.

Dr. Rooks was recently appointed to the NCAA Committee on Competitive Safeguards and Medical Aspects of Sports and is the President-Elect for the Maryland Academy of Family Medicine. She lives Ellicott City with her daughter Madison.

Brian Corwell, M.D.
Team Physician/Primary Care Physician
Third Year at Maryland

Dr. Brian Corwell is in his third year as a primary care team physician at the University of Maryland. He graduated from Tufts University in 1996 with a degree in biology and psychology. He then completed a pre-doctoral clinical fellowship at the National Institute of Health.

Dr. Corwell earned his medical degree from the University of Maryland in 2002, where he was a frequent volunteer in the College Park athletic clinic. Dr. Corwell completed his residency in Emergency Medicine at the Harvard Affiliated Beth Israel Deaconess Medical Center. He then returned to the University of Maryland to complete a fellowship in Sports Medicine. He has lectured and authored numerous publications on the subjects of Emergency and Sports Medicine.

Dr. Corwell lives in Baltimore with his wife, Viveka and newborn son, Gabriel.

Valerie Cothran, M.D.
Team Physician/Primary Care Physician
First Year at Maryland

Valerie E. Cothran, M.D., is in her first year as primary care team physician at the University of Maryland. Dr. Cothran is an assistant professor in the Department of Family and Community Medicine and serves as Program Director of the Primary Care Sports Medicine Fellowship at the University of Maryland. She received her medical degree from Wake Forest University and completed her residency at the University at Kentucky in Lexington, Ky. She also completed a fellowship in sports medicine at University of Kentucky Medical Center. Dr. Cothran is an alumnus of the University of Maryland and was a four-year letterwinner in track & field.
In the highly competitive world of collegiate basketball, the off-court preparation of the basketball athlete is a critical component in the on-court success of any Division I program. Corliss Fingers, Maryland’s strength and conditioning coach for women’s basketball, believes strongly that a solid off-court training program can dramatically improve levels of performance, as well as significantly reduce the chance of injury. The benefit of performing structured strength and power training throughout the entire year has allowed the Terps to reach new levels in physical development and, in turn, has resulted in great success on the basketball court.

Fingers’ philosophy consists of allowing the players to gain strength, speed and change of direction capabilities through drills that are basketball oriented. She believes that the team must be prepared to run and play the up-tempo style of basketball that is Brenda Frese’s trademark. Fingers trains the team so that it will be able to play up to Frese’s style.

The members of the women’s basketball team have the use of a fully-equipped weight training facility located down the hall from the women’s basketball office and the team’s locker room in Comcast Center. The conveniently located 4,000 sq. foot facility features a combination of Sorinex weight training equipment and York free weight equipment. The strength staff utilizes this facility specifically during the season as basketball team members are personally trained before, during and after the season.
TV, Radio & Internet Coverage

Maryland Sports Radio Network

Fans can follow the Maryland women's basketball team throughout the season on the Maryland Sports Radio Network. Listen to Matt Noble and Dave Preston call the action as they return for their fourth season with the team.

Ten games will be broadcast through the Terrapins’ flag-ship station on ESPN Radio 1300AM and LIVE 105.7 FM in Baltimore. The games can also be heard over the internet at www.terps.com by clicking on the Maryland All-Access link under the Multimedia.

Day Date Opponent Time
Sun. Nov 23 UCLA 2 p.m.
Mon. Dec 29 UNC-Ashville 2 p.m.
Tues. Dec 30 Terrapin Classic 2 p.m.
Mon. Jan 12 at Duke 7:30 p.m.
Sun. Jan 18 Virginia Tech 4 p.m.
Sun. Jan 25 North Carolina 7 p.m.
Fri. Jan 30 at Virginia 7 p.m.
Sun. Feb 5 Rutgers 1 p.m.
Sun. Feb 22 Duke 5 p.m.
Fri. Feb 27 Boston College 7 p.m.

ACC Select

Raycom Sports and the Atlantic Coast Conference, in partnership with CBS College Sports, will offer online video streaming of women's basketball games, including Maryland women's basketball games, during the 2008-09 campaign. The broadband network, called ACC Select, will primarily stream sports and games primarily not available through traditional broadcast and cable television distribution.

Terps on TV

Maryland appears on television at least 10 times this season, including five nationally televised games on ESPN2, Big Ten Network and Fox Sports Net (Comcast SportsNet in the Baltimore/Washington area). Overall, ACC teams will make 82 television appearances as part of the conference's television package. Maryland will have five games nationally televised on ESPN2 and Fox Sports Net, including its games vs. North Carolina, vs. Rutgers and both games of the regular season vs. Duke. The Terps' Big Ten ACC Challenge game vs. Ohio State will be on the Big Ten Network.

National analysts Debbie Antonelli and Beth Mowins return as part of the ACC's broadcast team and are joined by Charlene Curtis and Mike Hogewox, once again.

The regular season telecasts climax with the coverage of the 32nd annual ACC Women's Basketball Tournament at the Greensboro Coliseum, in which seven games will be broadcast – four on the league’s regional sports network (Comcast SportsNet, Fox Sports Net South, Fox Sports Net Florida and New England Sports Network) and three distributed nationally on Fox Sports Net (Comcast SportsNet in the Baltimore/ Washington area).

Athletics Web Site — www.umterps.com

Guidelines

1. Season media credentials are issued to those organizations that report on University of Maryland intercollegiate athletics on a regular and substantial basis, as outlined above. Issuance of season media credentials does not guarantee working space in media work areas.

2. With the exception of Terrapin beat reporters reporting on the team on a daily basis and producing daily reports, all passes are approved and issued on a game-by-game basis.

3. Except as otherwise provided for in this policy, all passes and credentials are transferable within the same media outlet for use by those serving an editorial function. Passes used by any member of a credentialled outlet without specific editorial assignment or by non-working members of the organization are subject to revocation upon University request.

4. Due to limited space and to ensure compliance with NCAA guidelines, credentials will not be issued to “free-lance” writers or photographers without a specific assignment received in writing by the assigning organization.

5. The University of Maryland and the NCAA prohibit the issuance of credentials to representatives of an organization that regularly publishes gambling information, such as “tout sheets” or “tip sheets.” The University of Maryland will not issue credentials to organizations whose primary function is to deliver news related to the recruitment of student-athletes.

6. No credentials will be issued to individuals under the age of 18. Admission to media facilities are for working media only.

7. Credentials may be issued: a) to online entities that are affiliated with a national or regional media organization; or, b) to online entities that host a website that regularly publishes gambling information, such as “tout sheets” or “tip sheets.” The University of Maryland will not issue credentials to organizations whose primary function is to deliver news related to the recruitment of student-athletes.

8. University personnel may deny or revoke credentials without notice and an individual shall surrender his/her credential upon request: for noncompliance with the priorities of guidelines set out in this policy; noncompliance with health, safety, or security directives issued regarding University athletic events; violations of University, Department of Intercollegiate Athletics, NCAA, or ACC policies; and for conduct for which there are reasonable grounds to believe violate state or federal law, or constitute a breach of professional ethics. Any organization that wishes to contest a denial or revocation shall: a) request the Media Relations Office provide a written rationale for the denial or revocation; b) submit a written request to that rationale to the Associate Athletic Director for Media Relations. After reviewing the response, the Associate Athletic Director for Media Relations, in consultation with appropriate University officials, shall issue a decision to uphold or reverse the denial or revocation. The Associate Athletic Director’s decision shall be final.

9. The University of Maryland Athletics Media Relations Office reserves the right to change this policy at any time. The latest version will be available online at www.umterps.com.

Credentialed Requests

Credential requests must be made by sports editors or sports directors online at http://www.sportsnetwork.com/clients/maryland/ no later than five days prior to an event. Credential requests can also be made on official letterhead from a sports editor or sports director and sent to Doug Dull, Athletics Media Relations Office, 2725 Comcast Center, University of Maryland, College Park, MD 20741. They may also be faxed to 301-314-9094 or e-mailed to ddull@umd.edu. No credential requests will be accepted by phone.

Credentialed requests will be mailed whenever possible, picked up at the Athletics Media Relations Office or picked up on game day at Media Will Call at the South Gate of Chevy Chase Bank Field at Byrd Stadium. Credentials will be sent via overnight entities (FedEx, UPS, U.S. Postal Service) only at the expense of the requesting outlet.

All persons picking up credentials will be required to furnish positive identification.

Internet Guidelines

The acceptance of media credentials is an acknowledgment of the University of Maryland’s rights to the game and play-by-play coverage and an outlet’s agreement to abide by any restrictions the University of Maryland may place on real-time play-by-play coverage and use of comprehensive game statistics. Failure to abide by these restrictions implemented by the University of Maryland may result in revocation of press credentials. Maryland reserves the right to grant approval for distribution of real-time play-by-play, game-related statistics and information through the Internet (“real time” is defined

as any online media providing live continual play-by-play coverage, in-game statistics, digital photographs, or audio or video of an event.

**Game Day Press Parking**
Game day parking is recommended on the north side of Comcast Center, best accessed from the University Drive (Rt. 193) entrance to campus at Paint Branch Drive. Parking is free and, except for selected games, open to the public. Please contact the women's basketball media relations contact.

**Photography Regulations**
All photographers and camera operators must remain seated in baseline photo areas, as per NCAA regulations. Locations will be assigned for more crowded games. Photographer and videographer positions are at the complete and absolute discretion of the basketball game officials and the Maryland media relations office at all times, without exception.

The NCAA has established a policy to control congestion in photography areas. Priority shall be given, in all instances, to photographers and videographers on assignment. Only game photographers (no runners, assistants or producers) shall have access to court side photo areas.

Strobe lights may be installed in Comcast Center, but arrangements must be made through the media relations office two weeks in advance. Space for strobe lights is available on a first-come, first-served basis.

**Press Seating**
Press seating is located on the basketball floor in the northeast corner of the arena. The area is manned by members of the Media Relations Office throughout the game. The Media Relations staff desires to help the media be as comfortable as possible during each game.

**Photographers**
The NCAA has established a policy to control congestion in the photography areas on the basketball court. Only photographers on assignment, along with members of working television media, are given photo passes. Admission to the court and the photo boxes is by photo pass only. Photographers, both still and electronic, must shoot from the baselines at the northwest (Maryland bench end/directly in front of press seating) and southeast (visiting bench) corners of the court. Photographer’s floor access is governed by Atlantic Coast Conference policy. Please note that only game photographers (no runners, assistants or producers) will have access to the photography areas. Photographers are also welcome to shoot from the photo deck on the west side of Comcast Center. Access to the photo deck is from the concourse level opposite the team benches. Photographer positions are at the complete discretion of the basketball game officials and the Media Relations Office AT ALL TIMES. Failure to comply with their directions will result in expulsion from the arena.

**In-Season Interview Policies**
All Maryland players and head coach Brenda Frese will be available for interviews with accredited members of the media throughout the season. ALL INTERVIEW REQUESTS must be made through the Media Relations Office, contacting the women’s basketball contact. Please give a minimum of 24 hours notice. Player’s individual phone numbers will not be given to the media and game day interviews will not be granted until the end of a game.

The Media Relations Office is located on the second level of Comcast Center in room 2725. The phone number is (301) 314-7064 and the FAX number is (301) 314-9094.

**Postgame Press Conference**
Postgame interviews with Maryland head coach Brenda Frese are held in media room following the game. Coaches from opposing teams will be brought to the media room after each game.

The Maryland locker room is closed to credentialed media. Players will be brought to the media room for postgame interviews at the media’s request. This is in accordance with ACC rules. The visiting team’s locker room access policy is determined by officials of that school.

**Postgame Statistics**
Statistics packets, including running play-by-play, first half and final boxscores and post-game notes and quotes, are compiled following every game and made available to the media at press row and in the press room.

**E-Mail Services**
Basketball releases can be obtained electronically by contacting the women’s basketball media relations contact or Joey Flyntz, media relations interim, at jflyntz@umd.edu. List TERP NEWS in the subject heading and include the name of your media outlet and phone number in your message. (This is a media service only).

**Telephones**
A limited number of telephones are available in the Comcast Center press room (calling card or reversed charges required). Any additional telephone requests should be directed to Nick Morrow, Asst. Director of Operations and Facilities, at 301-314-7127. List “Media Relations” as the contact for all installations.

**Weekly Teleconference**
The 12 ACC women’s basketball coaches will be featured on one teleconference, before the ACC Tournament on Tuesday, March 3, 2009, during the 2009-08 season. Replays of the teleconference will also be available at www.theacc.com. The media telephone number is (913) 312-6672.

**Directions to Comcast Center**
**From Baltimore and Points North**
Take I-95 South to Washington, D.C.’s Capital Beltway (I-495). Take Exit 27 and then follow signs to Exit 25 (U.S. 1 South toward College Park). Proceed approximately one mile south on Route 1; take the exit for 193 West (University Boulevard). At the first light, turn left onto Paint Branch Drive. The Comcast Center will be on your right.

**From Virginia and Points South**
Take I-95 North to Washington, D.C.’s Capital Beltway (I-495). Continue north on I-95/I-495 toward Baltimore. Take Exit 25 (U.S. 1 South toward College Park). Proceed approximately one mile south on Route 1; take the exit for 193 West (University Boulevard). At the first light, turn left onto Paint Branch Drive. The Comcast Center will be on your right.

**From Virginia and Points West**
Take I-66 East or I-270 South to Washington, D.C.’s Capital Beltway (I-495). Go East on I-495 toward Baltimore. Take Exit 25 (U.S. 1 South toward College Park). Proceed approximately one mile south on Route 1; take the exit for 193 West (University Boulevard). At the first light, turn left onto Paint Branch Drive. The Comcast Center will be on your right.

**From Annapolis and Points East**
Take U.S. 50 West to Washington, D.C.’s Capital Beltway (I-495). Go north on I-95/I-495 toward Baltimore. Take Exit 25 (U.S. 1 South toward College Park). Proceed approximately one mile south on Route 1; take the exit for 193 West (University Boulevard). At the first light, turn left onto Paint Branch Drive. The Comcast Center will be on your right.

**From Washington, D.C. (Northwest/Southwest)**
Take 16th St. North which becomes Georgia Avenue North at the Maryland/D.C. line. Go East on I-495 toward Baltimore. Take Exit 25 (U.S. 1 South toward College Park). Proceed approximately one mile south on Route 1; take the exit for 193 West (University Boulevard). At the first light, turn left onto Paint Branch Drive. The Comcast Center will be on your right.

**From Washington, D.C. (Northeast/Southeast)**
Take Rhode Island Avenue (U.S. 1 North) which becomes Baltimore Avenue North at the Maryland/D.C. line. Proceed through the city of College Park. Turn left at the main entrance (the intersection of Route 1 and Paint Branch Parkway). Take the immediate right onto Paint Branch Drive. The Comcast Center will be on your left.
