Definition of an Athletic Booster

An Athletic Booster is an individual who is known (or who should have been known) by a member of the University of Memphis's executive or athletic administration to:

- Have participated in or to be a member of an organization or agency promoting the institution's intercollegiate athletics program
- Have made financial contributions to the athletics department or to an athletics booster organization of that institution (e.g. Tiger Clubs, Highland Hundred, Fast Break Club);
- Be assisting or to have assisted in providing benefits to enrolled student-athletes and/or their families; or
- Have been involved otherwise in promoting the institution's athletics program.

Once an individual is identified as an athletic booster, s/he remains so for a lifetime. Athletic boosters are governed by the NCAA and University rules and regulations. **The University is responsible for the actions of all athletic boosters.** The University can be placed on NCAA probation for the activities of its athletic booster whether or not they are known to or being monitored by the University's administration.

In addition an athletic booster who has violated NCAA rules can be disassociated from the University's athletic program. Remember, violating a rule simply because you did not know about the rule is still a VIOLATION and the University WILL BE reprimanded.
