# Miami University

//

**The most beautiful college there is.**

—Robert Frost

**Hollywood couldn't build a better college set.**

—Ara Parseghian

**The trees, the campus, the tradition—you love the place instantly, and, I guess, forever.**

—Jim Steeg, senior vice president of special events, NFL

**If you have a picture of a college campus in mind, Miami looks the way you think a campus should.**

—Paul Brown

//

## Facts and Figures

- Founded in 1809, Miami University is the seventh-oldest state-assisted university in the nation and the second-oldest state institution west of the Allegheny Mountains. The University offers 10 associate degrees, more than 100 bachelor's degrees, 50 master's degrees and nine doctoral programs. The academic divisions and their percentage of total undergraduate enrollment include: College of Arts and Science (42 percent); Richard T. Farmer School of Business Administration (28 percent); School of Education and Allied Professions (17 percent); School of Applied Science (6 percent); School of Fine Arts (6 percent); and School of Interdisciplinary Studies (1 percent).
- Miami's central campus is located in Oxford, a classic college town with a population of about 19,000 located 35 miles north of Cincinnati and 45 miles southwest of Dayton. The campus consists of 1,179 acres. In addition, the University owns nearly 700 acres nearby: 300 at the University Airport, 300 in the Bachelor Wildlife and Game Reserve, and the remainder at the Ecology Research Center.
- Enrollment totals 20,000, including about 14,500 on the Oxford campus and more than 2,000 each on the Hamilton and Middletown campuses. About 235 students attend Miami's John E. Dolibois European Center in Luxembourg. About 18,000 of Miami's 20,000 students are undergraduates, a fact that reflects the University's traditional focus on high quality undergraduate education.

- Preserving and improving the environment is an important goal at Miami, both in academic research and day-to-day operations. Miami operates a successful Institute of Environmental Sciences and an active Ecology Research Center.

- Miami is among the top 23 schools for recycling, according to the National Wildlife Foundation. The University removes and recycles 60 percent of items in its waste stream.

## Adhering to the University's Strength: Teaching

- In *The Fiske Guide to Colleges 2002*, Miami is one of only 21 U.S. public institutions identified as a "best buy," offering "remarkable educational opportunities at a modest cost."

The guide says Miami has "an outstanding academics program, and excellent faculty, active social life and a beautiful campus all in one location." It is the ninth time Miami has made the "Best Buy" list.

- Miami ranks among the top 28 public national universities in *U.S. News & World Report 2002 America's Best Colleges*.

- *The Public Ivys* by Richard Moll proclaims Miami one of eight public institutions most similar to the Ivy League Schools for academic quality and collegiate atmosphere.

- 69 percent of freshman classes at Miami have 30 or fewer students.

- Miami's ratio of full-time students to full-time faculty is 17:1. Average class size is 24, affording the personal attention ordinarily found only at much smaller colleges.

- In recent years, more prospective freshmen have applied for admission into Miami than at any other time in history, highlighted by the year 2000 when a record 13,100 incoming college freshmen applied for admission.

## NCAA Division I Graduation Rates

Of NCAA Division I public universities, Miami ranks eighth in overall student graduation rate. Eighty percent of students who enroll at Miami graduate—the highest graduation rate among Ohio's public universities. Miami's graduation rate for African-American students also is higher than any other public university in Ohio.

## Other Rankings

In addition to the above rankings,

- Miami's accounting program ranks sixth among the nation's top 20 undergraduate programs, according to *CPA Personnel Report's* 20th Annual Professors' Survey-2001. For the first time, Miami's graduate accounting program also made the survey's top 20 graduate programs.

- Miami ranks 10th nationally for the number of students who study abroad.

- Miami's Entrepreneurship program was ranked first in the nation in 2001 by the U.S. Association for Small Business and Entrepreneurship.

- During the last five years, Miami graduates have been accepted into medical school at more than 60 percent above the national acceptance rate. Miami's overall acceptance rate is 50 percent (80 percent for zoology majors) compared to 40 percent nationally.

- Miami's law school acceptance rate is 82 percent, compared to 67 percent nationally.

# Miami University

## What They're Saying About Miami

### From "Selective Guide to Colleges"

"Long regarded as the most elite of Ohio's public institutions, Miami boasts one of the most classic, picture-perfect college campuses in the nation. Miami's well-groomed campus studded with red-brick Georgian buildings evokes the same image as its prestigious private competitors in the East. Miami provides a private school environment at a public school price. Miami offers an intensely collegiate life at a well respected school, beautiful grounds and a great academic agenda that makes every aspect of college life more worthwhile."

### From *Money* magazine

"...Miami University is one of the 10 best institutions in the nation."

### From *People* magazine

"The administration exercises strict control so that academic life is paramount."

### From *Newsweek* magazine

"Smart students are opting for prestigious state schools like Miami that are every bit as good as the top institutions but cost half as much."

### From "The Public Ivys"

"...academics tilted toward preparing students for the professions and leadership roles. Miami is all-American, wrapped up in academic gowns."...order and beauty on the hill plateau of Oxford ... trees and shrubs well groomed ... a brick Main Street, modified Georgian buildings, old and new ... immaculate everything."

### From "Public Accounting Reports"

"Miami is ranked sixth-best in the country in the quality of its undergraduate accounting program. Miami has done a good job of training its undergraduates and getting them placed."

## Providing Cost-effective, Accessible Education

- Miami has been in the top 10 of *U.S. News and World Report's* list of the nation's most efficient universities for each of the past five years.
- More than half of Miami students receive financial assistance in the form of grants, loans, scholarships, tuition waivers and/or work-study.
- Multicultural enrollment is steadily increasing, with multicultural students totalling nine percent of this year's freshman class. Retention is also strong, with more than 88 percent of multicultural freshman returning for their sophomore year compared to a national average of 63 percent.

## Preparing Students for Success

- Eighty percent of students who enroll graduate, 64 percent in four years and 78 percent in five. Miami's graduation rate of African-American students is higher than any other public university in Ohio.
- Our academic reputation drew more than 530 employers to campus last year to conduct 10,674 interviews, more than any other school in the 13-university Mid-American Conference. Nearly half of Miami's students participate in internships.

## Setting the Standard

- Miami programs and students regularly receive national recognition. A sampling of recent honors:
  - Miami University is one of only eight universities—and one of two state-assisted universities—to have produced a Rhodes Scholar, a Truman Scholar and a Goldwater Scholar during the 2001-02 academic year. Harvard, Yale, Princeton, Stanford, Duke, Syracuse and the University of Washington also produced this trio of winners of some of the nation's most prestigious scholarships
  - Anne Kafoure was one of 32 students nationwide named a Rhodes Scholar that provides for two or three years of graduate study at Oxford University in England. Miami was the only public university in the Midwest to produce a Rhodes Scholar in 2001.

## Creating an Environment for Leadership

- Miami students operate more than 300 organizations—groups devoted to careers, the arts, politics, religion, and more.
- Miami graduates are leaders in Ohio and the nation. More than 2,000 alumni are presidents, CEOs, or owners of their own companies.
- Miami's underlying liberal education curriculum for all undergraduate programs encourages problem solving and critical thinking—attributes that prepare graduates for the changing work environment.
- By the time they graduate, 38 percent of Miami students have participated in some form of leadership education and 82 percent have been involved in community service.

## “Mother Miami”

- Miami is known as the Mother of Fraternities, the birthplace of the *McGuffey Readers*, and the “Cradle of Coaches.”  
Well before 1900, the Miami Triad became a term known throughout the collegiate world with the founding at Miami of Beta Theta Pi as the first new fraternity west of the Alleghenies, in 1839; of Phi Delta Theta, in 1848; and of Sigma Chi, in 1855. Delta Zeta came in 1902, Phi Kappa Tau in 1906, and Delta Sigma Epsilon in 1914 to be merged with Delta Zeta in 1955.  
William Holmes McGuffey, a professor at Miami, was responsible for the famous *McGuffey Readers*. First published in the 1830s, the *McGuffey Series* educated five generations of Americans, with more than 125 million copies sold, a record unequalled in the history of education.  
Throughout the sports world, Miami has the unique reputation as the “Cradle of Coaches.” Legendary football coaches such as Woody Hayes, Bo Schembechler, Ara Parseghian, Weeb Ewbank, Paul Brown and Sid Gillman all had roots at Miami.  
At last count, more than 100 Miami graduates were active in coaching or administrative work in the professional and collegiate levels. More than 30 of the men and women in the collegiate ranks are presently head coaches.

## NOTABLE MIAMI ALUMNI

**C. Michael Armstrong '61**  
Chairman and CEO of AT&T

**Ira Berkow '63**  
Pulitzer Prize finalist and sportswriter for *The New York Times*

**William Burke '61**  
Founder and president of the Los Angeles Marathon

**Art Clokey '48**  
Creator of famous children's toys Pokey and Gumbo

**Phil Coffin '74**  
Sports editor, *The New York Times*

**R. Michael DeWine '69**  
United States Senator (R), Ohio

**Rita Dove '73**  
Two-term service as the United States Poet Laureate

**Wayne Embry '58**  
A director of the Federal Reserve Bank of Cleveland and former president and chief operating officer, team division, of the Cleveland Cavaliers

**Benjamin Harrison 1852**  
23rd President of the United States

**Richard Heckert '44**  
Former chairman and CEO of Dupont

**Richard Hoffer '71**  
Senior writer, *Sports Illustrated*

**Charles Mechem '52**  
Former commissioner of the PGA and current chairman of Cincinnati Bell, Inc.

**P.J. O'Rourke '69**  
Political satirist, television commentator, and international desk chief for *Rolling Stone* magazine

**Christopher Payne '76**  
Artist and illustrator whose work has appeared on the covers of *Time*, *Sports Illustrated* and numerous other national publications

**Paul Smucker '39**  
Founder of Smucker's brand jams and jellies

**Dr. James C. Garland**  
**President**

**U**nder Dr. James C. Garland, Miami University is poised to assume a new level of leadership in higher education.

Garland has established a strategic plan calling for Miami to be, by its 200<sup>th</sup> birthday in 2009, “the leader in the nation among public universities having a primary emphasis on undergraduate education and also having significant graduate and research programs.”

The University has taken significant steps toward that goal during Garland's five-year tenure. In recent years, freshman applications have reached new highs. In 1997-98, Miami posted a new record for private donations, with a 40-percent increase in gifts.

Miami has moved up to the top 25 in the *US News and World Report* ranking of public universities and been recognized by *Kiplinger's*, *Barron's* and *The Fiske Guide to Colleges* as one of the nation's best public universities and as a “best value” in high-quality education.

Garland has continually worked to increase Miami's intellectual climate, combat the perils of alcohol and substance abuse, and increase diversity and raise awareness of diversity issues. Over his tenure, minority enrollment has risen 14 percent and the graduation rate of African-American students has exceeded that of any other Ohio public university.

Prior to Miami, Garland enjoyed a 26-year career as a teacher, scholar, researcher and administrator at the Ohio State University, capped by service as executive dean of the Colleges of the Arts and Sciences and dean of the College of Mathematical and Physical Sciences.

Garland, whose research background is in condensed matter physics, has published more than 100 research papers in professional journals and has received approximately \$5 million in federal research grants. He is a Fellow of the American Physical Society.

He just completed a two-year stint as chair of the Mid-American Conference Council of Presidents and chaired the Inter-University Council of Ohio in 1999-2000. Recently he was appointed to Ohio's Technology Action Board by Governor Taft. Garland is an active member the Ohio Parents for Drug-Free Youth and the Think TV/Public Television Board of Directors. In addition, he serves on the Board of Directors of First Financial Bancorp and First National Bank of Southwestern Ohio.

The 1964 graduate of Princeton University earned his doctorate from Cornell University in 1969 and then studied at the University of Cambridge in England as a National Science Foundation Postdoctoral Fellow.

Garland and his wife, Carole, reside in Oxford. Garland has two grown children, Elizabeth and James.

# Strength and Conditioning

**S**trength and conditioning in terms of player development is an integral part of any successful athletic program. Miami University recognizes this fact with its strength and conditioning program, led by 1988 Miami graduate Dan Dalrymple, C.S.C.S.\*D. Dalrymple, who is in his 13th year on the RedHawk staff, is a former captain and all-MAC offensive tackle at Miami and will be inducted into Miami's Athletic Hall of Fame this year. He is assisted by full-time assistant, a full-time intern and eight to ten students.

*Dalrymple*

"Athletes are recruited by Miami to be champions," says Dalrymple, who was named the MAC Strength and Conditioning Coach of the Year in 1995, 1997 and 1999. "You don't just come here to be second-best. So it's our obligation to provide student-athletes with the tools to reach their full potential."

The foundation of the program is free weight training. "Research data from around the world supports the idea that multi-joint free weight training is the superior method for the training of athletes, for both performance enhancement and injury prevention," Dalrymple says. The free weight regimen includes both explosive Olympic lifting (cleans, snatches, presses and jerks) and power lifting (bench, squat and deadlift). The program is rounded out with free weight and machine supplemental exercises, as well as medicine ball and plyometric training.

"The three main goals of our conditioning program are to enhance performance, prevent injury and eliminate weaknesses," Dalrymple says.

Strength enhancement is not the only objective of the total program. "Speed is the No. 1 objective in our program," he adds. Team speed is dependent upon two factors: recruiting and our team speed development program." An innovative approach to speed development at Miami is "Speed School," which involves frequent testing in the 40-yard dash, video analysis and specific drills to improve speed, strength, running mechanics and flexibility.

Other areas emphasized by the strength and conditioning staff include flexibility (static and dynamic), power (speed and strength), aerobic and anaerobic conditioning, agility and body control, nutrition and body composition and motivation.

State-of-the-art equipment and techniques employed by Dalrymple and his staff include "speed chutes," position-specific training, video analysis, slide boards, computerized strength training program and testing design, and individualized plyometric programs.

All in all, the strength and conditioning program at Miami has greatly increased performance on the field. Furthermore, the program has reduced both the occurrence and severity of injuries.

"Our conditioning program is one of the most demanding around," Dalrymple says. "Our student-athletes know that when they step on the field they are in better shape than their

## Facilities and Equipment

- With the completion of the Gross Family Student-Athlete Development Center, Miami's strength and conditioning program will be able to reach new levels in the Miami Football Class of 1976 Strength and Conditioning Center. The 10,000 square foot facility, which is split between an upper and lower level, houses over a quarter million dollars worth of strength and conditioning equipment and boasts over 130 work stations.
- Miami's weight training facility is equipped with more than 26,000 pounds of steel free weights, as well as 10,000 pounds (90 pairs) of dumbbells and 6,500 pounds of Olympic bumper plates.
- Equipment in the facility includes 15 custom-made, self-contained modular power stations. These stations feature Pro-Star triple racks, Olympic platforms, removable multi-adjustable benches, technique scoops, stackable plyometric boxes and dip and chin up bars. Each station also has two Texas power bars, a curl bar, a full set of York Olympic plates, a York Elite Olympic lifting bar and York Elite bumper plates.
- For cardiovascular fitness, the facility houses 15 different cardio stations, including two treadmills, four elliptical machines, four stationary bikes, a Life Fitness Cross Trainer, an upper body ergometer, steppers and a rowing machine.
- Rounding out the equipment inventory are an assortment of machines and stations, including 29 Hammer Strength single-station weight machines and 42 machine and free-weight stations by Nebula.
- In addition to state-of-the-art equipment, the air conditioned facility boasts a \$31,000 state-of-the-art computerized sound and video system and houses a 30-yard sprint track.
- Also at the disposal of the strength and conditioning staff are three gyms at Withrow Court for indoor conditioning, two gyms and an indoor track at Millett Hall, turf and grass fields and a 10-lane all-weather track at Yager Stadium.

# Strength and Conditioning

## Walter L. Gross Jr. Family Student-Athlete Development Center

**T**he hub of Miami's athletic facilities, the \$5 million Walter L. Gross Jr. Family Student-Athlete Development Center was dedicated prior to Miami's September 22 home football game versus Cincinnati.

This facility, which is located between Millett Hall and Yager Stadium, caters to both the academic and physical needs of Miami's student-athletes. One half of the facility is dedicated for an 10,000-square foot physical fitness center, which includes free and machine weights, a circuit training machine, cardiovascular equipment, and speed, agility and jump training facilities.

The other portion of the center is devoted to academic enrichment. The new center features two large study areas, an informal study lounge, private tutoring offices and a computer lab.

"Miami's athletics' program has always prided itself with a strong commitment to both athletics and academics," says Steve Cady, associate athletic director and chair of the project design team. "This facility epitomizes our philosophy. It is an unbelievable addition to our facilities."

Separating the academic and physical fitness centers is a main lobby and reception area, which features a rotunda that dominates the reception lobby ceiling. Miami's rich athletic tradition, headlined by the "Cradle of Coaches," will be highlighted on the rotunda.

"It's a tremendous facility for our strength and conditioning efforts," says strength coach Dan Dalrymple. "We're able to do a lot of things we haven't been able to do in the past."

The facility opened its doors to student-athletes during the summer of 2001 and had a Grand Opening Gala on Friday, Sept. 21 in conjunction with Miami's football home opener with Cincinnati.

"This is a showcase facility for Miami University athletics," says former academic coordinator and current assistant Red and White Club director Darcy Shriver. "It is a convenient location for our student-athletes to enrich their academic and athletic experience. The Student Development Center represents another Miami commitment to first-rate athletic facilities."

# Support Services

## Academic Services

**M**iami's athletic department strongly emphasizes that its student-athletes succeed not only in their athletic pursuits but in their academic endeavors as well. Realizing the unique demands placed on the student-athlete, the department feels an obligation to provide the best possible academic aid and support.

That's where Miami's Comprehensive Academic Support Program comes into play. Begun during the 1987-88 academic year, the program monitors the completion of the student's course of study and subsequent graduation. The academic coordinators' offices are located in the new Walter L. Gross Student-Athlete Development Center and provide Miami's student-athletes with the tools to succeed in the classroom.

Miami's academic coordinator staff is comprised of three full-time counselors and one graduate assistant. David Graham, who joined Miami in 1998, Ben Carignan, who joined the staff in 2001, and Cindy Veraldo, who was hired in the summer of 2002, serve as the academic coordinators.

The three coordinators have the responsibility of implementing and coordinating all aspects of the academic support program for both the men's and women's teams and also running the CHAMPS/Life Skills program—an NCAA program initiated to develop and enhance the lives of student-athletes through educational programs and resources focusing on gender equity, student-athlete welfare and life skills.

"Miami student-athletes are in an environment in which both a rich athletic tradition and an outstanding academic reputation are important," says Graham. "Our student-athletes can feel confident that with the lessons learned in the classroom and on the playing fields, they will be well-prepared for whatever their futures may hold."

The academic coordinator's office is available throughout the student-athletes' careers at Miami. They supervise academic needs assessments for incoming grant-in-aid freshmen and follow that up by coordinating student academic evaluations and facilitating individual team study tables.

The office's responsibilities include assisting student-athletes with registration concerns and career counseling, as well as tracking their academic progress in cooperation with the University Registrar. The academic coordinator's office tracks over 550 student-athletes' records.

The academic coordinators also serve as a referral source to the Office of Learning Assistance for any athletes who may need tutoring or have other special needs. The students with whom the coordinator's office works with may also be referred to appropriate university agencies such as the Student Counseling Center, Career Assistant Center and Office of Financial Aid.

By working with the Career Planning and Placement Office, the academic support personnel can assist undergraduates and alumni of the program with the job-search process.

Much of the success of the academic support program lies in the willingness of the student-athletes to utilize support services such as tutoring and help sessions. The Miami coaching staff takes an active role in encouraging good study habits and successful academic strategies with their athletes on a daily basis. The coaching staff is an integral part of the support staff, as they meet individually with the staff to provide academic updates.

## Sports Medicine

**O**ne of the top priorities for the Miami sports medicine staff is to ensure that all student-athletes attain the highest potential for safe and effective participation in their chosen sports. This includes prevention, treatment and rehabilitation of athletic injuries, utilizing the latest techniques and equipment.

The main goal of the training staff is to prevent an injury from occurring. This involves getting to know the athletes and determining what factors could predispose them to injury, then acting to improve the situation. This process could include anything from routine taping to strengthening exercises for a chronic problem.

Despite all precautions, injuries occur, and when they do, the qualifications of the Miami athletic training staff truly become apparent. Regardless of the severity of the injury, the athletic trainers are prepared to give immediate quality evaluations and treatments for the condition. When the athletes return to competition, they do so after completion of a personally designed rehabilitation program with the goal of getting the athlete back to pre-injury status as quickly as possible.

Benefiting from one of the finest training rooms in Division I athletics, Miami's athletes are cared for with muscle stimulators, ultrasound, whirlpools and rehabilitation equipment such as the Orthotron II and KinCom. The resources do not end with the equipment, however; the staff of six certified athletic trainers and 20 student trainers have established one of the best sports medicine programs in the country. The educational curriculum has been endorsed by the National Athletic Trainers Association for 10-plus years.

Miami's sports medicine department is directed by head trainer Gale Newton, who is aided by assistant trainers Jennifer Beardslee, Dave Donnelly, Jolene Atkins, Kevin Morley, David Agbunag and Sam Pittera.

# Athletic Hall of Fame

**F**rom an inaugural class in 1969 that included legends like Walter "Smokey" Alston, Paul Brown, Weeb Ewbank, Ara Parseghian and John Pont, the Miami University Athletic Hall of Fame has grown to a membership of 146. Over 70 of the honorees have their roots in Miami's tradition-rich football program, including coaching luminaries such as Bo Schembechler, Sid Gillman, Bill Arnsparger, Bill Mallory, John McVay and Dick Crum, as well as standout players like Paul Dietzel, Bob Babich, Bob Hitchens and Rob Carpenter.

The number of inductees grows to 167 when the 33rd class is inducted at halftime of a basketball game this winter.

# Cradle of Coaches

**T**hroughout the sports world, Miami University has a unique reputation as the "Cradle of Coaches."

At last count, more than 100 Miami graduates were active in coaching or administrative work in the professional and collegiate levels. More than 25 of the men and women in the collegiate ranks are presently head coaches. The list of Miami graduates in the scholastic ranks totals more than 500.

Miami has been a training ground for such coaching greats as Woody Hayes, Ara Parseghian, Bo Schembechler, Paul Brown, Earl (Red) Blaik, Walter (Smokey) Alston and Wilbur (Weeb) Ewbank. In addition, eight national "Coach of the Year" recipients have been produced, including 1992-93 hockey recipient George Gwozdecky.

In recent years, the hockey program has begun to add to the long list through a graduate assistantship program in the Health, Physical Education and Sports Studies Department. In the program, members are required to teach, earn a master's degree and aid in coaching the club and/or varsity team.

Listed are the people who have graduated from Miami with an undergraduate or graduate degree or those who have used their work experience at Miami to further their careers at various levels of athletics.

Name	Years at Miami	Current/Former Status
Steve Cady	1977-pres.	Former Head Coach, Miami University
Bill Davidge	1977-pres.	Former Head Coach, Miami University
John Malloy	1979-81	Head Coach, Gilmore Academy
Steve Larson	1981-82	Former Head Coach, Bethel College (MN)

# Goggin Ice Arena

**G**oggin Ice Arena has been the home of Miami hockey since the program began in 1978.

Opened in September 1976, the main rink seats 2,850 fans for varsity hockey, which makes it one of the most intimate places to catch all the excitement of Division I college hockey.

In addition to a nationally competitive Miami hockey team, the main rink is also home to Miami's internationally recognized synchronized skating team, a championship club hockey team, the nation's largest summer hockey school program, youth hockey, numerous skating clubs and recreational skating that reaches into the community as well as Miami's campus.

Along with the main rink's regulation ice surface (200 x 85 feet), a smaller ice surface (approximately 140x60 feet) serves as home of MU's most popular intramural sport, broomball. The smaller rink is also used for PHS classes and recreational skating, giving Goggin Ice Arena the country's largest ice usage program.

Included in the building is a fully stocked pro shop with everything from equipment to souvenirs.

Originally called the Miami Ice Arena, the \$2.7 million dollar facility was officially named after Lloyd Goggin on October 11, 1984. Goggin was a Miami professor who was instrumental in the planning and building of the arena. The building hosted its first game, a club contest vs. Ohio University, on November 13, 1976. It has been the site for professional exhibition games, high school hockey games, I.S.I.A. and U.S.F.S.A. skating competitions and the annual ice show staged every spring.

With so many activities, Goggin's around-the-clock operation makes it possible for everyone to enjoy one of the best ice facilities in the country.

**Goggin Ice Arena has played home to 20 sellout crowds in the last three seasons.**

**A view of Goggin Ice Arena from High Street.**

## GOGGIN'S TOP CROWDS

1. Lake Superior State ..... 3,248 ..... October 21, 1988
2. Bowling Green ..... 3,178 ..... November 10, 1990
3. Lake Superior State ..... 3,144 ..... November 22, 1988
4. Michigan ..... 3,068 ..... October 13, 1989
5. Ohio State ..... 3,064 ..... November 22, 1986
6. Notre Dame ..... 3,050 ..... November 6, 1992
- Notre Dame ..... 3,050 ..... November 7, 1992
- Bowling Green ..... 3,050 ..... December 4, 1992
- Michigan State ..... 3,050 ..... January 22, 1993
- Michigan ..... 3,050 ..... February 6, 1993
11. Lake Superior State ..... 3,004 ..... January 21, 1984
12. Ohio State ..... 3,000 ..... February 2, 1989
13. Michigan ..... 2,976 ..... October 14, 1989
14. Ferris State ..... 2,950 ..... November 5, 1988

*Due to a fire marshall order in 1993, the top 10 crowds in Goggin Arena will not be surpassed unless renovations for more seating and space are made.*
