HEAD COACH CRAIG DAWSON

SIXTH YEAR AT NAVY ¥ U.S. NAVAL ACADEMY 73

Craig Dawson was able to fulfill a lifelong dream in March of 2000 when the 1973 graduate of the Naval Academy was handed over the reigns to direct the Navy squash program.

Having gone to school here with second-to-none facilities, it is a true honor to come back and be the coach, said Dawson.

Since taking on the head coaching duties, the Navy squash program has flourished. In his inaugural

season as head coach, Dawson led the Midshipmen to a 17-7 record and a 12th-place finish at the NISRA Team Championship. Meanwhile, he helped tutor former team captain Andy McCann to a top-50 individual ranking by season's end.

In season two, he paved the way for the Mids to finish a step higher at the NISRA Team Championship with an 11th-place finish. A week later, Dawson brought three Midshipmen to the NISRA Individual Championship where Andy McCann, David Haile and Edson

Greenwood all played exceptionally well.

Navy not only tacked on two more wins to its victory total (19-7) during the 2001-02 campaign, it was the recipient of the 2001-02 Team Sportsmanship Coaches Award at the NISRA Championship Banquet. The Midshipmen were recognized by the member schools of NISRA who voted to award Navy this prestigious honor. It's the second time in the last four years in which Navy has received the honor, as it was awarded the same recognition in 1998.

In 2003-04, the Mids produced a 15-9 record and finished the year ranked No. 16. Seniors Edson Greenwood and David Haile were among the country's top 60, as Greenwood ranked No. 47 and Haile was 58th. Meanwhile, fellow senior Kinleong Ho was awarded a Rhodes Scholarship by his home country of Singapore.

Last season, Dawson led Navy to a 24-7 record, establishing a school record for wins in a season. Three players ended the season ranked among the top 75 in the country, including rising sophomores Tucker George and Jeff Sawin, ranked 41st and 71st, respectively.

While playing both tennis and squash for Navy, Dawson was an All-America squash player and an All-East singles and doubles player. Additionally, he was the captain of both teams during his senior season.

ASSISTANT COACHES

TED BERGER
ASSISTANT COACH
FOURTH YEAR

After serving as a volunteer coach with the Navy varsity squash program for better than 20 years, Ted Berger joined the Navy squash staff in 2002-03 as a full-time assistant coach.

During his 20-year (1972-1992) tour in Annapolis, Berger worked alongside three stand-out coaches in Art Potter (1972-73 through 1976-77), Bobby Bayliss (1977-78 through 1980-81) and Dave Brown (1981-82 through 1997-98). Craig Dawson is now Berger's fourth coach in which he has worked with at Navy. Berger and Dawson have a unique relationship. When Berger came on board as a volunteer in 1972, Dawson was a senior and captain of the squash team.

Berger renewed his Navy squash relationship in 2000 when he volunteered to coach the junior varsity squash squad shortly after Dawson was named the head coach.

Berger earned his bachelor's degree from Buffalo.

Berger resides in Annapolis and is the father of four children and proud grandfather of nine grandkids.

CAPT. PHIL RYAN, USN (RET.)
ASSISTANT COACH EMERITUS
U.S. NAVAL ACADEMY '50
22ND YEAR

Capt. Phil Ryan, USN (Ret.) has been associated with the Navy squash program for more than 20 years, and is the assistant coach emeritus. Ryan was twice the Deputy Commandant for the Naval Academy and was commanding officer of the USS Saratoga. While a Midshipman at the Naval Academy, he was an All-America and team captain in lacrosse and football. In 1950, he was awarded the Thompson Trophy and played in the East-West Shrine Game.

Capt. Ryan is responsible for the development of the squash players and heads the junior varsity squash program at the Academy.

Capt. Ryan and his wife, Beth, reside in Annapolis. They have three children and three grandchildren.

2005-06 OUTLOOK

After turning in a school-record 24 wins a year ago and finishing 14th in the final NISRA rankings, Navy squash has set the bar high. That said, Navy returns three of its top four players on the ladder and the freshman class is loaded with talent. Sixth-year Navy head coach Craig Dawson sees the Mids' progress moving forward is a realistic goal.

The plan is to improve one step at a time, said Dawson. Our goals for the season include moving forward in the final ranks, exceeding last year's win total and a solid finish in the College Squash Association Team and Individual Championships.

To accomplish those goals, Navy will rely upon the experience of its three seniors, led by team captain **SCOTT HACKMAN**. Hailing from McLean, Va., Hackman is coming off perhaps his best season as a Navy squash player. He produced a 22-5 record, seeing most of his time at the No. 4 spot. He opened the 2004-05 campaign on an eight-match winning streak which included a 3-1 triumph over Hobart's Gavin Johnstone-Butcher. Along the way, he twice defeated Bowdoin's George Macleod, including in the Mids' CSA Team Championship victory. Though he claimed just one of the three matches in the CSA Team Championship, he was one of the stronger players, dropping tough 3-2 decisions to Amherst and Bates.

Senior **PATRICK KRUSE** has been a consistent player for the Midshipmen. A lanky player who can cover the court in a hurry, Kruse is a three-year letterwinner who posted a 16-8 record for Navy at the No. 7 spot last season. He played a key role in the Mids' two victories over Bowdoin a year ago, which featured a 3-1 win over Nick Adams at the CSA Team Championship. His fitness is an advantage on the court which showed through his 5-1 record in four-game matches last season. His lone four-game loss was to the defending champion Trinity's David Sullivan.

Rounding out the senior class is **DHRUV PARASHAR** who jumped out to a solid start a year ago with a 6-0 record, but struggled at the end of the year, losing seven of the final 10 matches. Dawson is confident Parashar's experience will help carry Parashar through those tough stretches this season. As a junior Parashar posted a 15-11 record, turning in a 15-7 mark in three-game matches.

Navy's junior class is an inexperienced one with **PHIL JENKINS** having played just 10 varsity matches and former tennis player **DAN HELLIER** joining the squash team this fall. Both will fight for playing time, but face the challenge of talented underclassmen.

Sophomores **TUCKER GEORGE** and **JEFF SAWIN** met the expectations Dawson had hoped from his two rookies, but he sees talent which was yet to be tapped. George made a statement early when he defeated 2004-05 team captain Gavin Morrison, 3-1, to become the first freshman in program history to win the U.S.S. Barb Squash Racquets Perpetual Trophy. By virtue of winning the trophy, he was awarded the No. 1 position on the ladder to start the season, a spot he would not relinquish. George finished the season with a 16-8 record, all at the No. 1 spot. He defeated Hobart's Tajvir Rathore, a nationally-ranked player, in four games in just his fourth collegiate

match. Additionally, he picked up a pair of wins over Bowdoin's Jon Crowell, including a 3-0 triumph in the CSA Team Championship. Because of an illness, George was unable to compete in the CSA Individual Championship. He finished the season ranked No. 41 in the country, the highest a Navy freshman has been ranked in program history.

A two-sport athlete, Sawin divides his time between the golf course and the squash courts. As a freshman, Sawin turned in a 17-9 record and finished the year ranked 71st in the country.

Navy's No. 3 player on the ladder, he started the season 7-0 with all seven victories coming in sweeps, including a 9-1, 9-0, 9-1 triumph over Cal Berkeley's Steven Dang in his first collegiate match. Sawin

dropped his first match of his career against eighth-ranked Dartmouth in a five-gamer. In addition, Sawin won his opening-round match of the CSA Individual Championship against Amherst's Michael Strong, 9-5, 9-6, 9-7.

In addition to George and Sawin, look for sophomores **WILLIAM EUCKER**, **BRIAN HAMILTON** and **MATT WIGGINS** to push forward in 2005-06. Eucker posted a 9-0 record for the Mids a year ago, while Hamilton and Wiggins played with the JV team.

Like last year's incoming group of freshmen, this season's group is ripe with talent and several of the players will push for a spot on the ladder.

Hailing from the same high school that produced Tucker George is **ALASTAIR SMITH**. A graduate of The Taft School, Smith garnered letters in squash (4), lacrosse (3) and soccer (3). He led The Taft School to the 2003 New England Tournament title with a 12-2 record and was named a Founders League All-Star as a junior. Smith is coming off a serious knee injury which sidelined him all of last year. Dawson has likened Smith to that of former Navy great Edson Greenwood and sees Smith's potential without boundaries heading into the season.

CHRISTOPHER ZIPF earned letters in squash (3) and baseball (2), while also competing in cross country and football at the Episcopal Academy in Merion, Pa. He led the squash team to the 2003 Inter-AC League Championship, while earning

Second-Team All-Main Line honors in 2005, as well as being named the team's most improved player. Zipf has a good deal of junior experience and is expected to make a move ahead of some of the returning lettermen.

A 2005 graduate of the William Penn Charter School in Philadelphia, Pa., **WILL PAPPAS** was a three-sport standout who earned letters in cross country (4), squash (3) and lacrosse (3). Dawson likes his attitude and excited to see Pappas progress as the season begins.

MICHAEL JOHN BEAUTYMAN JR. is a graduate of Chestnut Hill Academy in Philadelphia, Pa., where he lettered four times in squash, tennis and twice in cross country. He helped lead Chestnut Hill Academy to the Inter-AC League squash title last year. A player who possesses excellent racquet skills, the potential is there for Beautyman to improve and contribute.

From top to bottom, the 2005-06 squash team is perhaps the most talented group Navy has put on the court in recent memory.

THE BOWEN CUP

The Bowen Cup is a celebration of six decades of Navy squash, as every year the current Navy squash team faces off against the alumni squad which fields a team of 15-20 players. The 2003 version of the Bowen Cup featured standouts from the 50s, 60s, 70s, 80s, 90s and several graduates of the 2000 era.

The match is played in memory of its namesake, Vice Adm. Harold G. Bowen Jr., who was a member of the Class of 1933.

The 2003-04 match in particular marked a special time in Navy squash history, as four new courts were dedicated in Halsey Field House. The four additional courts

provide Navy with 10 total (six in Bancroft Hall), and will allow the Academy to play host to future CSA Individual Championships.

In his sixth year as the head of the Navy squash program, Craig Dawson is excited about the premier event which welcomes back all of the alumni.

SPORTSMANSHIP AWARD

First awarded in 1981, the NISRA Coaches Award is presented annually to that team which has best exemplified the ideals of sportsmanship in squash.

Navy, who has won the award more than any other school in the league, has received the award six times 1985, '87, '96, '98, '02 and 2004. Yale has been the recipient of the award the second-most times, four.

Recipients of the award three times in the last eight years, the Midshipmen have been recognized by the Association's coaches in two of the last four years. One of those member coaches who nominated Navy for this prestigious award was Pennsylvania head coach Craig Thorpe-Clark.

In particular, Navy had quite a few new players this season and Coach Dawson instilled the same values as in some of the past teams, said Thorpe-Clark. Those values are synonymous with Navy teams. Regardless of their talent level in any given season, they play hard and do their very best to win.

It's easy to be gracious when your winning, but it's not always easy to have that same attitude when you are on the other side. I've always found Navy's players to handle themselves the same, win or lose. That's a hallmark of Navy.

Not only is the award based upon a team's attitude and gamesmanship, a unique facet of the game of squash is how the game is officiated. College squash is the only intercollegiate sport where the players serve as the referees. Often a player is required to make a call against a teammate. In a sport where everyone is expected to play by the rules, Navy is considered to be one of the most ethical and fair teams.

Across the board, the Navy players are prepared to call a match properly and fairly, pointed out Thorpe-Clark.

While Thorpe-Clark praised the Midshipmen, he added his respect for Navy's fourth-year coach Craig Dawson.

Coach Dawson should be commended in the job he has done at Navy, remarked Thorpe-Clark. He is extremely professional with the opposing players and coaches. I have been a coach for nine years in the United States and I have a great deal of respect for Craig as a friend and mentor.

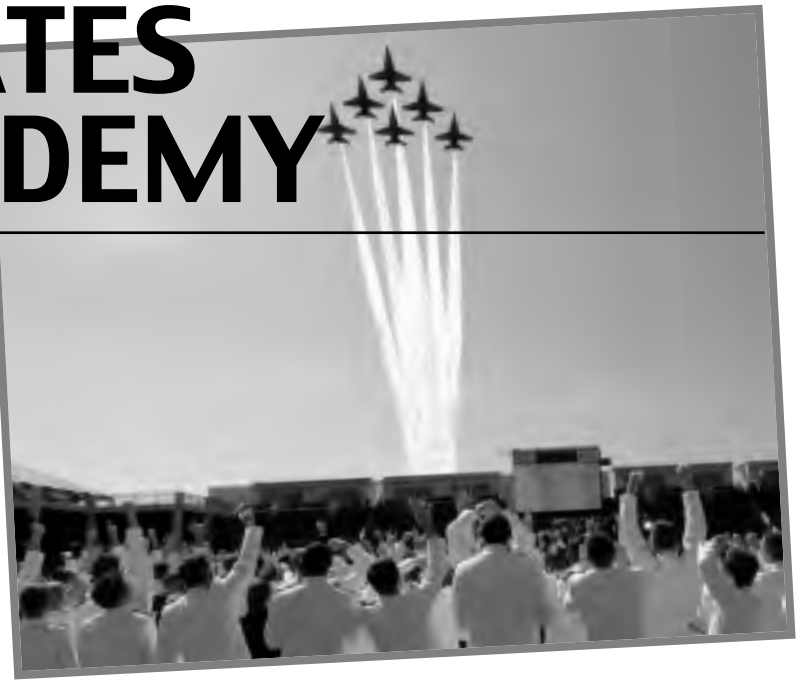

The plaque is presented annually to that team which has best exemplified the ideals of sportsmanship in squash.

UNITED STATES NAVAL ACADEMY

Secretary of the Navy George Bancroft laid the foundation for the Naval Academy when, in 1845, he established the Naval School at Fort Severn in Annapolis. Commander Franklin Buchanan served as the first Superintendent. His faculty consisted of four officers and three civilian professors. There were 50 students. Initially, the academic and professional instruction required five years the first and last at Annapolis, with the intervening three at sea.

In 1850, the Naval School became the United States Naval Academy. The following year, the Academy adopted its current course of instruction which includes four consecutive years at Annapolis, with at-sea training provided during the summers.

The Naval Academy moved to Newport, R.I., during the Civil War. In 1865, it was re-established at Annapolis under the leadership of Vice Admiral David Dixon Porter. During these early years, the Academy was one of the few institutions of higher learning offering a sophisticated undergraduate course in technical education.

The late 19th century saw immense changes in naval technology with the conversion from sail-powered, wooden ships to steam-powered vessels of steel, which also resulted in rapid developments in naval weaponry and tactics. With the Spanish-American War in 1898, the United States became a world naval power, and early Naval Academy graduates like George Dewey and Alfred Thayer Mahan made significant contributions to our national heritage.

The new century saw the nation's undergraduate naval college grow in size and academic prowess. The Class of 1895 had produced 41 graduates. By World War I, there were nearly 200 graduates each year, along with 2,500 reserve officers who received their training at the Academy.

With the entry of the United States into World War I, courses were shortened to three years, a program which remained in effect

until 1921.

Between the two world wars, the curriculum and training equipment were modernized to keep pace with rapid advances in the naval profession and American education. In 1930, the Association of American Universities accredited the Naval Academy, and in 1933, an act of Congress authorized the Naval Academy to confer the degree of bachelor of science on graduates, beginning with the Class of 1931. Congress authorized award of the degree to all living graduates in 1939. The Middle Atlantic States Association of Colleges and Secondary Schools first accredited the Academy in 1947.

During World War II, summer sessions were instituted and the course was again shortened to three years. As during World War I, reserve officers, along with reserve midshipmen, also trained at the Academy.

In 1963, the Academy initiated the Trident Scholar Program, under which a number of exceptional students are permitted to pursue independent research during the first class (senior) year.

The 1964-65 academic year saw the civilian positions of academic dean and dean of admissions established and far-reaching changes made to the curriculum. The number of required core courses was reduced and, for the first time, each midshipman was allowed to pursue academic areas of individual interest for minor or major. Additional changes, introduced in the 1969-70 academic year, now require every midshipman to complete a major.

In 1975, President Gerald R. Ford signed legislation authorizing admission of women to the service academies. The first women midshipmen entered the Academy in July 1976 and graduated with the Class of 1980.

MIDSHIPMEN LIFE

It all begins with fourth class year. From their first day at the Academy, the fourth class midshipmen, or plebes, undergo an intensive and unabated program of military training and indoctrination. Physical and mental demands on them and their time seem never-ending. But it all has a purpose: the development of leadership ability, motivation, moral strength, physical skills and stamina.

Plebe Summer is a time which most midshipmen will remember for many years. New midshipmen are kept constantly busy learning basic skills in seamanship, navigation and marksmanship. Their pride and company spirit are boosted through infantry drill, small arms train-

MISSION OF THE NAVAL ACADEMY

TO DEVELOP MIDSHIPMEN MORALLY, MENTALLY AND PHYSICALLY AND TO IMBUE THEM WITH THE HIGHEST IDEALS OF DUTY, HONOR AND LOYALTY IN ORDER TO PROVIDE GRADUATES WHO ARE DEDICATED TO A CAREER OF NAVAL SERVICE AND HAVE POTENTIAL FOR FUTURE DEVELOPMENT IN MIND AND CHARACTER TO ASSUME THE HIGHEST RESPONSIBILITIES OF COMMAND, CITIZENSHIP AND GOVERNMENT.

ing, sailing Navy yawls and cruising in yard patrol craft. Their competitive spirit and desire to win are developed in activities such as athletics, dress parades and seamanship.

Plebe Summer is highlighted in August during Parents Weekend, when parents visit the Academy and witness the progress of their sons and daughters.

The arrival of the upperclassmen in mid-August heralds the beginning of the academic year. The plebes embark on a four-year course of study while plebe indoctrination continues.

September brings the excitement of football and other fall sports. During the football season, only selected units of the brigade travel to away games, but the entire brigade attends all home games and the annual fall classic, the Army-Navy game.

Commissioning Week, in May, brings the graduation of the first classmen and the end of plebe year. Plebes signify the end of the first year at the Academy by scaling the smooth granite sides of Herndon Monument to replace, at its summit, a plebe cap with an upperclass cover.

Between plebe and third class years, midshipmen get their first taste of life at sea and their introduction to the enlisted men whom they will lead when commissioned as officers. Joining ships around the world, midshipmen perform a host of shipboard duties including standing deck, gunnery, operations and engineering watches. Midshipmen also have their first opportunity to visit foreign countries and experience different cultures.

Third classmen begin work in their academic majors and assume more responsibility in the military regimen at the Academy. Less emphasis is placed on indoctrination, leaving more time for studies, sports and extracurricular activities. It's a welcome change from the rigors of plebe year.

During their third summer, midshipmen get their first training in four warfare specialties which comprise the naval service. They learn about submarines at New London, Conn.; surface warfare at Norfolk, Va.; naval aviation at Pensacola, Fla.; and the Marine Corps at Quantico, Va.

Second class midshipmen are assigned still additional military responsibilities. They are selected and trained to direct the Brigade of Midshipmen during absences of the first class. They are also assigned an important role in indoctrination of the new plebe class, which develops their leadership skills. In academics, the second class midshipmen enter increasingly advanced areas of study.

During their final year at the Academy, first class midshipmen

complete the core curriculum and their academic majors course requirements. Many undertake independent research projects, and some begin graduate-level studies at nearby universities. The first class midshipmen also take over the responsibilities for plebe indoctrination. They also lead the brigade at parades, formal ceremonies and daily formations. They are responsible for the conduct, military smartness and competitive records of their units. The skills which the first class midshipmen develop this year will help them when they assume their leadership responsibilities in the Navy and Marine Corps following graduation.

One common denominator which binds the four years into a unit which will forever shape the life of an Academy graduate is the Honor Concept.

Established and administered by midshipmen, the Honor Concept is based on the principle that honorable individuals do not lie, cheat or steal. All midshipmen are expected to conduct their lives in accordance with the Honor Concept so that their decisions as midshipmen, naval officers and civilians reflect the highest levels of honorable conduct.

THE CURRICULUM

With the aid of academic and military advisors, midshipmen design their own blend of the curriculum's three elements:

- ¥ Courses providing the professional and leadership skills required in the naval service.

- ¥ Core requirements in engineering, social sciences, natural sciences and the humanities to ensure breadth in education.

- ¥ Completion of a major program in an academic subject chosen by each midshipman to develop individual interests and talents in depth.

The Naval Academy offers major programs in 19 subject areas: eight in engineering; seven in sciences and mathematics, including computer science, as well as information technology, the most recent addition; and four in the humanities and social sciences. Seven of the engineering majors are accredited professionally by the Engineering Accreditation Commission of the Accreditation Board of Engineering and Technology.

Selected humanities and social science majors with excellent records are invited to enter the rigorous honors programs offered by the departments of Economics, English, History and Political Science.

Outstanding students also have the opportunity to engage in independent study and research during their senior year. Those selected as Trident Scholars carry a reduced formal course load so they can pursue a major research project and prepare a thesis. They are assisted by one or more faculty advisors who specialize in the field of study.

A number of first class midshipmen who complete academic requirements early are encouraged to enroll in graduate classes at area universities. This Voluntary Graduate Education Program gives them the chance to graduate and receive commissions with their classmates, finish their graduate studies locally and then go to their first assignments with a master's degree.

All midshipmen undertake professional military training, beginning on the first day of Plebe Summer and continuing through first class year. This includes classroom studies, drills and practical training at the Naval Academy and with Navy and Marine Corps units during summer programs. Navigation, seamanship, tactics, naval engineering, weapons, leadership and military law are among the areas studied. To advance and graduate, midshipmen must pass professional competency examinations covering general knowledge and subjects related to their service selection.

The Naval Academy's physical education program complements academic and professional development of midshipmen. Instruction and training aim to develop individual skills and competitive spirit, life-long habits of physical fitness, and the capability to withstand physical hardship when necessary. All midshipmen must complete the four-year program which includes the Physical Readiness Test (twice annually), water survival, physical development, personal defense and lifetime carryover sports. Women participate in the same curriculum, including boxing, wrestling and judo.

COMMISSIONING WEEK

Six days of parades, athletic events, colorful ceremonies, formal dances and receptions bring to a climax four years of challenging education and training.

One highlight of Commissioning Week is Color Parade. Each year, intra-brigade competition is conducted to determine which of the 30 companies stands highest overall on the basis of academics, intramural sports, professional drills and parade performance. During the parade, the color girl, who is selected by the Color Company commander, transfer the flags from the past Color Company to the new one.

The biggest social event of Commissioning Week is the ring dance for the second class midshipmen. An elegant formal affair, it is at this event that the midshipmen begin wearing their class rings.

First class midshipmen and their families attend the superintendent's garden party and reception, plus other social events. Athletic, academic and professional awards are presented in Alumni Hall. The evening before graduation, everyone is invited to attend the farewell ball.

On graduation day, friends and relatives gather with the midshipmen at Navy-Marine Corps Memorial Stadium. After the diplomas are presented and the oath of office is administered, the senior midshipman of the new first class leads three cheers for "those about to leave us." The graduates, led by the class president, reply with three cheers for "those we leave behind." On the last hooray of this cheer, the 1,000 graduates toss their midshipmen covers into the air. According to tradition, the honor of putting on the new Navy Ensign and Marine Corps Second Lieutenant shoulder devices is shared by mothers and Commissioning Week dates.

NAVY BLUE & GOLD

HAVE PROVED THE SAILOR'S RIGHT TO WEAR
THE NAVY BLUE AND GOLD**

WE'LL PLEDGE THE BLUE AND GOLD.**
