The BIG EAST Conference and XOS Digital, Inc., a leader in digital sports media, jointly announced a new partnership on July 1, 2010 resulting in an overhaul to the conference's official website www.bigeast.org. The BIG EAST Conference's re-launched site resides on a robust content management system that allows the site to be completely customized on the fly. The new site features a cutting-edge online video platform, a sleek new design, simplified navigation and a newly developed conference-wide regular season and postseason live statistics platform.

The conference's online video platform will retain its BIGEAST.tv branding, with fans driven to that URL to consume all of the conference's live online and on-demand video offerings. Those offerings will now include new on-demand programming in the form of webisodes and vignettes produced in XOS Digital's production facility. BIGEAST.tv also will feature highlights of every nationally televised BIG EAST contest posted following the conclusion of every game and other on-demand interviews and features. In addition, fans can access BIGEAST.tv for live streaming of certain conference championships, which will be offered free-to-consumers.
