

**Directions:** Student-athletes should complete the application and submit it to their Eligibility Coordinator by **March 31, 2014**.

Summer grant-in-aid awards are discretionary, not automatic, and are disbursed in accordance with NCAA, Mid-American Conference, and University policy. Awards may not exceed the equivalent proportion of the student-athlete's grant-in-aid provided during the previous academic year. Please see OhioBobcats.com for the full summer aid policies & procedures.

The summer financial aid committee will determine the level of funding and communicate this information to the student-athlete via the head coach and the e-mail address listed above. **A completed application does not guarantee approval of summer aid.**

Please note that per department policy, unless courses are needed to meet progress towards degree requirements or graduation, student-athletes are eligible for aid to cover the costs of one course (1-5 credits). Athletic Aid can only be applied to courses offered through the Athens campus of Ohio University.

By signing below, I understand that if I am awarded a summer scholarship and subsequently decide to withdraw from a course, that course must be dropped by the deadline for receiving a 100% refund of tuition charges (see University catalog). If you withdraw from classes and have received an off campus disbursement, this amount must be refunded in full. Upon dropping the course, all textbooks (if applicable) must be immediately returned to the bookstore. Any class dropped after this date and/or failure to immediately return the textbooks will result in charges to my university account. Such action will constitute forfeiture of summer aid, and these charges will become my responsibility. Additionally, any charges resulting from enrolling in a class other than those offered by the Athens branch of Ohio University will also be my responsibility.
