

Providence College Men's Basketball vs Northeastern
November 15, 2008
Dunkin' Donuts Center

Forward Jonathan Kale #34

When you tied it and had all the momentum, did you think you had it at one point?
"Of course, we're always confident in the way we play. There's always more we can do but hats off to them. They knocked out some big shots and the key guys really stepped up in the end."

Do you think this team needs to play with more emotion? You do it, but do you think there wasn't enough emotion and intensity, urgency?
"No, I think everyone wants it on this team I may show it a little more but everyone wants it all the same. It just didn't work out for us tonight."

Rebounding wise in the first half was good but the second half:
"One thing that coach stresses is that all five guys checking somebody out and grabbing bodies and going after the ball. He wants everyone flying in on the offensive end and defensive end. You have to want it. You just have to want it."

Do you think your use to the old, new system and it's just going to take a while to get use to?
"It's not an excuse, but at the same time it's our first real game. One down in the books and a whole bunch more to play. We play Tuesday and that's a quick turnaround."
