

Providence vs Maine
November 22, 2008

Jeff Xavier #01

The team, you guys are better each and every game. It's pretty obvious.

“Definitely, it's key on offense, we're pushing the ball more and finding the open man. We're finally starting to get the offense going. The last three games we're just clicking on offense and defense, rebounding the ball well, and we're pushing it out and that's key for us and we're scoring a lot of points.”

You had it going today with your shot. When you see a zone, do you get excited?

“Yeah every shooter, that's their dream. All three games they played us all zone so I came in with the mentality that if I'm open I'm going to shoot the ball. Before the game I came in about two and half hours early to work on my shot to find the weakness in the zone and kept on moving with the ball and kept on finding it.”
