Commitment to Personal Development

The primary goal of the NCAA CHAMPS/Life Skills commitment to personal development area is to support the development of a well-balanced lifestyle for student-athletes, encouraging emotional well-being, personal growth and decision-making skills. Through the services provided by the sports medicine staff and the athletics student services staff, Purdue student-athletes are provided a number of opportunities to further develop healthy lifestyles and to become well-balanced, well-adjusted individuals.

Commitment to Service

The primary goal of the NCAA CHAMPS/Life Skills commitment to service area is to engage the student-athlete in service to his or her campus and surrounding communities. Purdue student-athletes value the importance of giving back to the community. Through many community service projects throughout the year, Purdue student-athletes show their appreciation by helping those in the Greater Lafayette area.

Cancer Challenge

Ranked among the world's top basic cancer research facilities, Purdue's cancer center teamed with the Athletic Department and the community to raise more than \$50,000 in this year's cancer challenge. Purdue sports teams either participated in the 5K run, volunteered or raised money for the Danny Hope Cancer Challenge.

Hammering with Hope

The excitement is building this year with Habitat for Humanity of Lafayette and Purdue's football coach, Danny Hope! Each fall Habitat for Humanity of Lafayette will build up to 3 houses with the enthusiastic endorsement of Danny Hope. Kicking off the collaboration in 2009, the Purdue Nation will be honoring recently retired Purdue football coach, Joe Tiller!

The first house will be funded primarily by donations from Purdue athletic alumni (especially current NFL players from the Tiller era) and will be constructed by the Purdue Student-athletes! As a part of the new Leadership Academy curriculum, the Boilermaker Athletic Council and the Emerging Leaders will head up this outstanding opportunity for the student-athletes and their teams to give back to the community and learn the value of service.

Commitment to Career Development

In recent years, the Division of Intercollegiate Athletics has formed a solid relationship with the AFTERSPORT GROUP. The AFTERSPORT GROUP offers services geared toward preparing athletes to transition from the locker room to the boardroom. Through a series of workshops and individual coaching sessions, the AFTERSPORT GROUP provides athletes with the tools that assist them with transitions along the Athletic Continuum. Whether that entails moving into professional sports, or preparing for life after an athletic career, the tools the AFTERSPORT GROUP provides can be used as the groundwork for building a path to a rewarding future.

ASG MISSION STATEMENT:

Our mission is to empower current and former student-athletes with the tools to make educated career choices that leverage their abilities for successful performances beyond the arena.

AGS offers Collegiate and Professional Guidance in the following areas:

RESUME BUILDING
BUSINESS ETIQUETTE
INTERVIEWING
NETWORKING
CAREER MAPPING
JOB PLACEMENT

“The AfterSport Group has been a great resource for our student-athletes. The guidance and support they provide has had an immediate impact, and I believe the information made available by the ASG staff will continue to benefit our student-athletes as they leave campus and pursue their goals outside of athletics.”

Matt Painter
Head Men’s Basketball Coach
