Summer Athletics Aid

Summer athletics aid is awarded to student-athletes above and beyond the regular academic year Grant-In-Aid Agreement, and is available on a limited basis. It is meant to promote progress toward graduation, and is not meant to be used to regain eligibility. Summer athletics aid is not automatic. Enrolled/continuing student-athletes must earn eligibility for summer athletics aid by demonstrating commitment to Spartan Athletics and making satisfactory progress toward a degree throughout their career at San Jose State. To be considered for summer aid, student-athletes must apply and meet all of the following criteria:

1. Must have demonstrated consistent progress toward a degree;
2. Must have made consistent contributions to the success of the team; and
3. Must have received athletics aid during the previous academic year, or will be receiving athletics aid in the following academic year.

Guidelines of Summer Athletics Aid Awards

- Summer athletics aid is contingent upon budget availability, which varies annually.
- Pursuant to NCAA Bylaw 15.2.8.1.2, summer athletics aid may be only awarded to enrolled/continuing student-athletes in proportion to the amount of athletics aid received by the student-athlete during his/her previous academic year. For example, a student-athlete receiving 50 percent athletics aid during the regular academic year may not receive more than 50 percent athletics aid during all summer sessions combined.
- Pursuant to NCAA Bylaw 15.2.8.1.2.5, a student-athlete who has not received athletics aid from SJSU during a previous academic year may receive athletics aid to attend SJSU’s summer session(s) as long as he/she has been awarded athletics aid for the following academic year AND the summer athletics aid is awarded only in proportion to the amount of athletics aid the student-athlete will receive for the following academic year.
- A summer athletics aid award MAY consist of tuition/campus fees, books and a room and board stipend. All summer athletics aid awards vary based on the student-athlete’s summer enrollment and the percentage of their Athletics Grant-In-Aid Award during the academic year in accordance with NCAA rules set forth above. Unless the student-athlete is receiving a full summer athletics aid award, the breakdown of their summer athletics aid award will MOST LIKELY differ from the Athletics Grant-In-Aid Award they receive during the academic year. For example, a student-athlete who receives tuition and books during the academic year may only receive a portion of their summer school tuition and no books.
- Student-athletes awarded summer athletics aid will receive such aid only for session(s) in which they are enrolled. For example, a student-athlete enrolled in only Summer Session I and receiving a full scholarship (tuition, books and room and board stipend) will receive a room and board stipend for Summer Session I; the student-athlete will not receive the room and board stipend for the entire summer (all three Summer Sessions). Further, a student-athlete receiving summer athletics aid must be enrolled in a minimum of three units per summer session of enrollment.

- Tuition

Updated 3/11/13
Unlike the academic year, summer tuition is charged at a variable rate based on units of enrollment.

Student-athletes who withdraw from a class and/or do not earn a passing grade in a summer session course will be responsible for paying back tuition provided by SJSU Athletics for that course(s).

**Room & Board**

- On-campus housing for summer session(s) is reserved for incoming prospects, transfers and greyshirts. On-campus housing for continuing student-athletes is NOT available during the summer session(s) through SJSU Athletics. Continuing student-athletes may attempt to arrange and pay for on-campus housing during summer session(s) with Housing Services directly.

- Student-athletes enrolled solely in on-line course(s) who reside more than 50 miles from campus during summer are eligible for tuition and book scholarships only. SJSU Athletics will not provide a room and board stipend to student-athletes residing more than 50 miles from campus during summer.

- Student-athletes enrolled solely in on-line course(s) who reside within a 50 mile radius of campus during summer are eligible to receive tuition, books and a room and board stipend. Such student-athletes must fulfill a weekly study hall requirement of one hour per unit of enrollment (3 unit course = 3 hours of study hall per week).

**Procedure for Applying for Summer Athletics Aid**

1. Each student-athlete interested in receiving summer athletics aid must complete the Summer Athletics Aid Application, which is distributed to Head Coaches by the Student Services Coordinator in March.
2. The Application is then submitted to the appropriate Athletic Academic Advisor in Student-Athlete Success Services for verification that the coursework requested is degree applicable.
3. The Athletic Academic Advisor submits the completed Application to the appropriate Head Coach.
4. The Head Coach reviews the Application, signs and submits the completed Application to the Student Services Coordinator.

**Procedure for Approval and Notification of Summer Athletics Aid**

1. The Director of Student-Athlete Success Services, Athletic Academic Advisors and Director of Compliance review and approve summer aid with consideration given to gender equity, equitable distribution of aid and budget constraints.
2. The Director of Compliance will notify the appropriate Head Coaches of the approval or denial of summer athletic aid awards. The notification will include each student’s individual summer aid award breakdown.
3. Student-athletes approved for summer athletics aid will sign a summer Grant-In-Aid Agreement.
4. Athletic Academic Advisors work with the student-athletes who are approved for summer athletics aid to ensure appropriate class registration.
