The Great Spartan Soccer Tradition

Soccer has been played at SJSU since 1927. The rich tradition includes 25 All-Americans, the 1968 Herman Award winner and 15 NCAA Tournament appearances.

Julius Menendez coached the Spartans to 295 victories from 1954-1989 with 22 consecutive winning seasons.

Gary St. Clair coached the Spartans to 217 victories from 1990 -2013 and participated in nine NCAA Championship Tournament games after his playing days as an All-Conference keeper for the Spartans in the early 70s.

The **NEW Spartan Soccer Complex** will be home for the Men’s and Women’s Soccer teams at San Jose State. The facility will feature a 2500 seat stadium located on the corner of 10th and Alma Bvld. on the South Campus. The complex will also have an auxiliary practice area and all natural grass surface. Locker rooms, coaches offices, training room, equipment room and players lounges will highlight this state of the art facility and provide San Jose State with the venue it deserves to compete for championships well into the future.

Construction Plans:

Phase 1: Soccer field and practice area. Estimated cost: $1,500,000

Phase 2: Team locker rooms, coaches offices, training room, equipment room and players lounges. Estimated cost: $4,750,000

**URGENCY!!!!!**

We need to raise the money NOW! The existing soccer field will be demolished to make room for a golf facility beginning in the Spring of 2016. A more ideal permanent location for the new soccer stadium has been designated just east of Spartan Stadium. We need to act fast to minimize the inconvenience on our soccer programs and student athletes. Recruiting will be enhanced with this state of the art facility. We want the new field ready to go for the 2017-18 school year.

Please help us build this beautiful new Spartan Soccer Complex now!
