CAMP EXPERIENCE

APPLICATION FOR 2012

DIRECTOR – JOHN TRASK

John Trask recently completed his second year as head coach of the University of Wisconsin Men's Soccer Team following a highly successful stint as the head coach at the University of Illinois-Chicago (UIC). He led the Badgers to a 10-8-2 and a 2nd place finish in the Big Ten regular season as well as reaching the semifinals of the Big Ten Tournament for a 2nd straight year. Trask guided UIC to three straight NCAA tournament berths reaching the round of 16 and the elite 8. His style of soccer helped mentor four All-American honorees and developed one of the most creative and attacking styles of play in college soccer.

Trask began his coaching career at Indiana University under legendary Coach Jerry Yeagley. While an assistant at Indiana, he helped guide the program to eight Big Ten titles and back-to-back National Championships (1998-99). Then, as an assistant coach in Major League Soccer (MLS), he aided the Miami Fusion to the 2000 Open Cup Final and the 2001 Supporters' Shield (for best regular season record).

In addition to operating soccer camps since 1982, Coach Trask has also worked extensively with the United States Soccer Federation and has been appointed Assistant Coach for the U-23 National Team in preparation for the London 2012 Olympics. Trask has served as an Assistant Coach for the U-18 National Team which participated in the Sydney Youth Olympics, the Milk Cup held in Northern Ireland and most recently an International Tournament hosted by Israel in Tel Aviv.

Coach Trask has tutored some the biggest names in the game....

THE TOTAL SOCCER PLAYER APPROACH

Soccer has become a fast-paced, interchangeable game which demands that all players can attack and defend with equal proficiency. In the modern game, players need a total development approach to their training. It is the belief of the University of Wisconsin Elite Soccer Academy that to have success and enjoy the game players need to be trained in all facets of the game.

Training sessions will be geared toward teaching each and every player to know his roles, responsibilities and skills needed to excel in all areas of the field. Technical ability with the ball and the ability to assess and make good decisions will be an important part of every training activity at the camp. All campers will be put in challenging activities which mimic the pressures felt in the modern game.

The game has also changed for the goalkeeper. A goalkeeper can now be best defined as a soccer player who must be able to confidently handle shots and crosses while supporting the team via verbal commands and possession. Those players who are in the goalkeeper segment of the camp will be exposed to activities that train the traditional technical aspects of goal-keeping while integrating them into the rest of the team's play.

This Total Soccer Approach will allow players to see new and rewarding activities which will aid them in their quest for excellence on the soccer field. Coach Trask and his staff will bring passion to the game of soccer for all participants!
