96S. Flaming Gorge Yacht Excursion

The Cabin on the Lake is a 30 foot 2007 regal yacht with its home port of Buckboard Marina. You will spend a fun filled day of exploring the beauty of Flaming Gorge Reservoir. The day will begin with a champagne brunch at the Marina prepared by Captain Charlie Van Over and assisted by his first mate Lynn, after which we will cast off on our adventure. The beginning of the trip will be through the high desert of southwest Wyoming and the beauty of the rock formations and varied colors of the surroundings, to the forest at the Utah end of the lake. Yes, unfortunately we will need to play some in that other state. You will experience the beauty of Horseshoe Canyon and see cliffs and color that make Flaming Gorge. Lunch will be served aboard the Cabin at Kingfisher Island and we will proceed from there to the dam where you will be able to tour the visitor center and learn more about the lake. Flaming Gorge Reservoir is roughly 90 miles in length but we have the entire day. Finally, a steak dinner will be served either at the Marina or another location chosen by the Captain, depending on weather conditions. Then you can experience some of the most beautiful sunsets on earth. If you look closely you might even see deer, elk, big horn sheep or antelope. Bring your cameras as we look forward to a fun filled adventure. Available June 20, 2009-August 15, 2009.

The concept that was created and Odyssey perfected is that seeing a series of same-sized objects helps the human eye to align those objects more effectively.
