 - Wildlife and Fisheries Biology and Management (Professional)
 - Zoology

OAS Mission Statement

The mission of the University of Wyoming Athletic Academic Support Staff is to support student-athletes in their continued personal and academic growth, assist with career planning and continually monitor and maintain UW, Mountain West and NCAA academic requirements. Student-athletes are strongly encouraged to be personally accountable for their success by engaging in proactive communication with their professional academic advisors, Wyoming Faculty, and the Assistant Athletic Director for Athletic Academic Support.

Student-athletes are expected to be positive role models in and around the Wyoming community, use the academic resources and designed support structure to benefit their academic standing, and participate in community service opportunities.

The University of Wyoming Athletic Academic Support Staff is committed to prepare its student-athletes to meet the challenges of their academic and athletic environment. In keeping with the concept that student athletes are a significant part of the University's school system, we will work in collaboration with the Athletic Department and other University Offices to establish and achieve their personal academic, NCAA Division I academic-athletic eligibility, and career planning goals. We will assist student-athletes in making a successful transition to University life by providing answers to questions as they arise, solutions for problems students might encounter, and an opportunity to meet faculty and staff at the University of Wyoming. These efforts and others culminate for the student with graduation, job placement or continued education.

University of Wyoming Quick Facts

- Ranked among nation's top colleges and universities by U.S. News and World Report and the Princeton Review in 2010
- Total UW enrollment: 13, 476
- New Freshman: 1,594

OAS Website

The Athletic Academic Support Staff has developed a website for the convenience of all our UW student-athletes. The website offers an expanded description of all the academic support services, beyond the brief summary of services listed below. On the website you can also find the contact information for the staff and a number of valuable tips and strategies for academic success at UW.
